

ACA-Southern Region Technology Report

Little Rock, 2008

Jeffrey Freiden, Ed.D.

I continue to operate and maintain the Southern Region website on my server at http://www.wefixfamilies.com/ACASR/southern_region.htm.

Information is also still being passed on to ACA for posting on our website that is connected to ACA.

We have taken our conference registration on-line. ACA is hosting our registration site without charge as a test pilot. We will review the success of the program after conference in Little Rock.

The listserv is running well. We continue to get one or two requests a month (mostly students) requesting to be added to the listserv. We will need to decide what direction to take as far as opening up listserv membership to others.

Send any suggestions or corrections to me at Qwerty613@aol.com.

Jeffrey Freiden, Ed.D
