Update - 20/20: A Vision for the Future of Counseling

David Kaplan reported on the current activity of 20/20: A Vision for the Future of Counseling. 29 of the 31 entities have endorsed the definition of counseling. The next step is licensure portability.

Strategic Initiatives

The body divided into groups to discuss the top two priorities among the Strategic Planning Initiatives. The groups focused on two initiatives: 1) Governance, and 2) Improving member services and benefits to address 21st century needs. The groups were to create two action items to address the issues and pick two priorities related to those actions.

Group Reports:

Group 1 - Strategic Planning Initiative – Governance.

Nomination and Election Process for ACA President:

From the suggested changes to the Policies and Procedure 1210.2 – Nominations and Elections of Officers:

• Add two things to the list of qualifications: No ethical violation and 10 years as an ACA Member
• Add to the criteria of experiences: Branch leadership as a President of a Branch; Multiple involvements in divisions; and community service as related to the profession.

President Evans instructed the Nominations and Election Committee to redo the draft of suggested changes to incorporate the items discussed and circulate on the listserv for discussion and have recommendations for the Governing Council to vote on in March.

Group 2 - Strategic Planning Initiative – Improving member services and benefits to address 21st century needs.

Objective 3: Objective 3: Increase the services to practitioners.

• Information needs to be available digitally and hard copies available.
Objective 5: Market to/attract international members (globalization)

- To create an international membership fee that was sliding based upon the economic level of the country.
- A global benefit package that would be electronic.
- Connect with existing ACA efforts, such as International Committee or affiliate organizations such as CACREP and NBCCI.

We don't want to come across as patriarch and that we know best, rather because we have the membership size and the economic resources, we can be a hub of information and resources that people could access. We are not telling people what to do or that we know what is best.

**Group 3 - Strategic Planning Initiative – Improving member services and benefits to address 21st century needs.**

Objective 1: Develop membership options that are responsive to diverse member needs.

- Like the model where a division membership is offered free for one year with the parent organizations membership.
- Retaining the student memberships and what would entice them.

Objective 2: Increase the use of technology to enhance the delivery of services to members.

- Additional online resources by topic.
- Increase the professional networking.

Objective 4: "Services for profit" information for a fee for nonmembers

- Job Bank – ACA may not service in this function but have resources to link to other job banks.

Objective 5: Market to/attract international members (globalization)

- Not a high priority, but if you provided the services the international members will join.

**Group 4 - Strategic Planning Initiative – Improving member services and benefits to address 21st century needs.**

Objective 1: Develop membership options that are responsive to diverse member needs.

- Find a way to keep members, especially students.

Objective 3: Increase the services to practitioners.

- ACA become the one-stop shop for practitioners. If practitioners needs something they would automatically come to ACA first.

**Group 5 - Strategic Planning Initiative – Improving member services and benefits to address 21st century needs.**

- May need a different approach – looking at how are the emerging leaders different from us? Before we do anything else, step back and take a look at the kinds of needs these students have, so we can have a better idea of what they want.
We need to train the students on being professionals and being a member of a profession association - shaping professional behavior and professional identity.

Next Steps: Form Strategic Plan online workgroups to address the various Strategic Planning Initiatives; a facilitator will be assigned for each group to work, to continue the work using technology.

**Adjournment**

There being no further business, the meeting of the ACA Governing Council was adjourned at 2:15 p.m. on October 29, 2010.
