The most current trends in solution-focused counseling are explored in the latest edition of this updated and expanded text. Dr. Guterman provides a comprehensive and straightforward discussion of solution-focused theory and describes how the model can be used throughout the therapeutic process. Clinical techniques and detailed case studies illustrate counseling with clients experiencing a range of problems, including depression, substance abuse, grief, morbid jealousy, and trichotillomania. New chapters and sections in this edition address anxiety, eating disorders, migraine headache, psychosis, spiritual and religious problems, self-injurious behavior, and suicide. Additional features include excerpts of dialogue from actual counseling sessions, sample forms and supplementary materials, and troubleshooting tips for getting unstuck in difficult cases. The final chapter titled “The Future of Solution-Focused Counseling” considers new directions for the model as well as developments in research, clinical settings, and technology.
