It was moved by Stiles and seconded by Porter that: The Board of Directors direct the President of APGA to communicate the following recommendations to (1) APGA professional staff, (2) Committee on Women, (3) Convention staff, and (4) the "select seven person convention committee" (to be constituted):

Women's Issues

Planned directions for APGA in areas of women's equity. The basic recommendation of this subcommittee of the APGA Board of Directors is that APGA continue to support women's rights with vigor.
1. That the Committee on Women continue to operate as a separate APGA committee.
2. That the following recommendations be considered by APGA staff as convention planning continues:
   A. That future convention site considerations reflect the interest of APGA in scheduling with considerable desire to meet in non-ERA ratification states with the express purpose of positively impacting local participants.
   B. That careful selection and orchestration of quality speakers and quality programs sensitive to Human Rights, Human Sexuality, Human Development, and non-traditional Occupational Development would provide the major focus of convention programming.
   C. That future convention Content Programs be limited in number with efforts made in advance to identify the best presenters with practical materials to have the greatest influence with the least confusion to the largest number of people.
3. That APGA adopt a low-key, soft sell mode of persuasion as opposed to the more confronting, forceful approaches.
4. That support of Equal Rights continue to be identifiable in all aspects of the philosophies and functions of APGA, and that the commitment to women's rights enjoy the continued vigorous support of all Divisions.
Motion passed.

It was moved by Scott and seconded by Roland that: The APGA Convention Coordinator and the on-site convention coordinator be asked to place a booth in the registration exhibit area of the 1983 convention for dissemination of program information relating to special topics; e.g., programs related to women's issues such as printed in the February 22 Committee on Women Newsletter, programs related to adult development and aging. These criteria would be used for any
organization meeting provisional Division status, but not meeting the 1,000 membership after the established five year period. \textit{Motion passed}. (In presenting this motion it was noted that POCA has met all of its originally stated goals except the 1,000 membership. It does not take 1,000 members to make a Division cost effective. It is a time for pulling together under a counseling umbrella and POCA's philosophy is compatible with APGA's.)

J. McDonough dated February 3, 1982.
