84-62 - Awards Committee

84-68 - Nominations and Elections Rules

It was moved by Hylander and seconded by Jones that: The AACD Board of Directors move into Executive Session for thirty minutes in order to discuss Nominations and Elections. Motion passed, and the Board moved into Executive Session.

At the end of the first thirty minutes, it was moved by Locke and seconded by Roland that: The time of the Executive Session be extended for an additional thirty minutes. Motion passed, and the Executive Session continued for the additional half hour.

It was moved by Locke and seconded by Jackson that: The Board of Directors approve election procedure changes as presented by the Nominations and Elections Committee on pages three and four of the Committee's recommendations. Motion passed. The Election Procedure Changes approved by this motion are as follows:

(1) Establish different primary voting procedures.

   We recommend that the ballot be removed from the Guidepost and placed on a direct mail card. This two part card would be mailed to all AACD members via first class or third class postage. Part A of the card would provide general information and instructions. Part B would be the ballot which would be removed and returned. Members would still be required to pull their label from the mailer and place on the part of the card which is being returned. Part B would be pre-addressed, but the member would be required to place postage on the card. Information about the candidates would continue to be placed in Guidepost and scheduled to appear about the time the ballots are distributed.

(2) Modify the information which is present about the candidates.
We recommend the Guidepost continue as the publication to carry candidate information. Further, we recommend that all nominees for AACD and division office prepare two statements — one about their experiences and qualifications and one about their goals for the Association and a limit on the words allowed for each statement be established and enforced. No one chooses to wade through the often long and boring resumes of our candidates. The volume of information which we present about our candidates may cause people not to vote. In the AACD primary, both the qualifications statement and the goals statement would be published. On the final ballot, the qualifications statement (repeat) and responses of the two finalists to a series of predetermined questions (like our present system) would be published. For the division elections, the two statements on the two finalists for each office would be printed. If candidates exceed any word limits, their materials will be rejected.

(3) Modify existing election schedule.

Modify the current election schedules to maximize voter/member participation. We would recommend the following schedule modification to implement our existing elections rules and procedures. If AACD chose to implement any changes (our or others) this calendar would need to be amended:

Proposed calendar:

| Nomination of AACD presidential candidates to headquarters | June 15 |
| Call for candidate information and statements of AACD presidential candidates issued | July 1 |
