Feeling the Sizzle: What to do When Experiencing Counselor Burnout
30-Minute Poster Session
Clark Ausloos, Madeline Clark,
Preventing burnout is a prominent topic in counselor education programs, but there is little information available on what to do if a counselor is currently experiencing burnout. Navigating burnout is essential for counselors, as burnout can lead to relational problems, substance abuse and impairment. This poster presentation will provide attendees with clear interventions, helpful memory devices, and concrete strategies for mitigating burnout in school and clinical settings.

Addiction to Social Media and Virtual Interaction: An Overview of Emerging Phenomena
Poster Session,
Reginald W. Holt
Behavioral addiction has emerged as technology advances and mobile device use increases. Despite its unique components, social media addiction has neurological, behavioral, emotional, and cognitive characteristics typically associated with substance addiction. This poster will review how social media activates the brain's reward system, identify commonly recognized symptoms, and propose mindfulness as one intervention to increase awareness, delay gratification, and manage urges and difficult emotions.

Counselors’ Experiences Working With Children With Externalized Behaviors
30-Minute Poster Session
Jessie D. Guest
Developmentally, children communicate their needs differently than adults (Landreth, 2012), and when they are exposed to traumatic events, they tend to exhibit changes in behavior and mood (Gerson & Rappaport, 2012). Children's behavior can be stressful for counselors due to a lack of understanding, thus negatively affecting the counselors' ability to be present in session and interfering with the therapeutic relationship. This study engages counselors working with this population to understand the counselors' needs.

What Does My Race Have to Do With Ethical Decision Making? Supervisors of Color and EDM
30-Minute Poster Session
Candice R. Crawford, Shanta Pamphile, Dana Heller Levitt
In this session, presenters will provide findings from a qualitative study that was conducted with supervisors of color and their ethical decision-making (EDM) processes. From the study, presenters will identify the challenges that supervisors of color endure and how racial/ethnic differences influence EDM processes in supervision. Additionally, presenters will discuss various decisonal frameworks that are beneficial to cross-cultural supervisory relationships.

Counselors’ Experiences of Workplace Aggression and Organizational Values
30-Minute Poster Session
Clayton V. Martin, Eleni M. Honderich
This poster presentation will discuss the results of a national study that examined the prevalence of workplace aggression in the counseling profession. Professionally, counselors uphold core ethical values and principles to respect the autonomy of clients and protect the public from harmful practices (in accordance with the 2014 ACA Code of Ethics); however, the findings of this study suggest a lack of fidelity to these practices when applied within organizational contexts in which counselors work.

Disaster Relief to (Re)Development: A Sustainable Partnership Model for Community Engagement
Amanda Dilenrozo
Partnerships with communities around the world and collaborative work is increasing through globalization and a growing professional identity of counselors internationally. With this, it is imperative for professional counselors to consider the long-term implications of their efforts in communities post-disaster. A sustainable model of
Sexual dysfunctions also may heighten significant emotional distress, impact negative body image, and cause significant distress in relationships. Research shows neglect and discomfort in gathering information about a patient’s sexual history in the field of medicine, and the researchers believe said neglect and discomfort may parlay into counseling. Future recommendations for counselor education and supervision will be discussed.

8:00 am – 8:30 am
Program ID #514, Hall B1, Poster Area 2
Implementing a Statewide Public Health Approach to Suicide Prevention
30-Minute Poster Session
Angie Waliski
The prevention of suicide is a national crisis that requires a partnership between international and local counselors/community leaders will be presented for post-crisis response. The model will cover the stages of relief through recovery. Furthermore, the model will support and elaborate on the counselors’ role leading to sustainable development through post-disaster response to enhance equity and wellbeing in the communities they serve.

8:00 am – 8:30 am
Program ID #510, Hall B1, Poster Area 10
Let’s Talk About Sex: Sexual HistoryTaking During Counseling Intakes
30-Minute Poster Session
Matthew J. Paylo
The DSM-5 identifies a number of sexual disorders and dysfunctions. Sexual dysfunctions also may heighten significant emotional distress, impact negative body image, and cause significant distress in relationships. Research shows neglect and discomfort in gathering information about a patient’s sexual history in the field of medicine, and the researchers believe said neglect and discomfort may parlay into counseling. Future recommendations for counselor education and supervision will be discussed.

8:00 am – 8:30 am
Program ID #511, Hall B1, Poster Area 11
Domestic Immersion: Building Cultural Competence
30-Minute Poster Session
Stephanie J. Thorson-Olesen, Debra Murray, Megan K. Baker
The 2014 ACA Code of Ethics emphasizes that counselors must gain the knowledge, awareness, sensitivity, disposition, and skill relevant to diverse client populations. Therefore, the purpose of this presentation is to further examine ethical considerations, relevant literature, and the results of a research study regarding self-report findings of counselors-in-training, pre- and postdomestic immersion. The results suggest that domestic immersion is one way for counselors to develop multicultural competence.

8:00 am – 8:30 am
Program ID #512, Hall B1, Poster Area 12
Redefining Culture Shock, The Impact of Studying Abroad on Counseling Students at HBCUs
30-Minute Poster Session
Dazzmen N. Davis
Furnham and Bochner (1986) strongly advocated the social skills/culture learning model for its theoretical robustness and because it also led to training methods. “Shock” is understood as the stimulus for the acquisition of culture-specific skills that are required to engage in new social interactions (Jack, 2014). The purpose of this poster is to present the multilayered experiences of students at historically Black colleges and universities (HBCUs), specifically African American graduate students.
comprehensive, multifaceted approach that engages private and public sectors to improve suicide reporting, prevention, and treatment using proven methods. This presentation describes the development of a statewide collaborative approach to suicide prevention within the predominately rural state of Arkansas and the roles that mental health, college, and school counselors have played to implement this approach.

10:30 am – 11:00 am
ACAC Featured Session
Program ID #515, Hall B1, Poster Area 3
School-Based Universal Mental Health Screening: Strategies for Counselors
30-Minute Poster Session
Emily Goodman-Scott, Jennifer Betters-Bubon
Counselors in schools and mental health settings can come to this poster session to learn more about universal mental health screenings in the K-12 schools to identify and serve students with elevated needs. Presenters will focus on recent research, as well as practical strategies for implementation.

10:30 am – 11:00 am
Program ID #516, Hall B1, Poster Area 4
Rehabilitation Counseling Workforce Wellness and Self-Care Considerations
30-Minute Poster Session
Molly Tschopp
This presentation is aimed at exploring self-care and wellness in the rehabilitation counseling workforce. Training program accreditation standards, as well as the ACA and CRCC ethics codes, call for counselor attention to self-care. Professional issues such as empathy fatigue, compassion fatigue, and burnout will be examined. Strategies aimed at the prevention of such issues and approaches to the promotion of counselor self-care and wellness will be discussed. Resources will be provided.

10:30 am – 11:00 am
Program ID #517, Hall B1, Poster Area 5
Biometric Measurement of Anxiety
30-Minute Poster Session
Robin Switzer
An overview of research conducted to determine the correlation between biological indicators and established assessment of anxiety in adults will be presented. The focus will be on the understanding of the relationship between biological indicators and assessment tools and their potential utilization for an integrated practice of intervention and/or client tools for day-to-day care.

10:30 am – 11:00 am
Program ID #518, Hall B1, Poster Area 6
Use of Hypnosis in Addictions Treatment
30-Minute Poster Session
Arna Erega
The presenter will provide a brief overview of current addiction issues; present use of hypnotherapy as a treatment modality in addition to traditional treatment approaches; discuss current research and the benefits of hypnotherapy in alcohol and substance abuse treatment; share personal experience in implementing hypnosis with addiction clients; and provide implications for counselors and professionals. The presenter will also engage attendees in discussion and allow for Q & A.

10:30 am – 11:00 am
Program ID #519, Hall B1, Poster Area 7
Behavioral and Integrated Health Care Training for Practitioners Who Counsel Children
30-Minute Poster Session
Jolie Daigle
The traditional counseling curriculum has expanded to include behavioral health and integrated care training. This poster will review relevant content related to this areas, including evidence-based programs, so counselors can learn how to reduce barriers and facilitate treatment, prevention/postvention strategies, and evidence-based treatments and approaches when providing counseling services for youth.

10:30 am – 11:00 am
Program ID #520, Hall B1, Poster Area 8
The Effects of Content Pacing on Brain Wave Patterns and Implications for Treating Attention Deficit/Hyperactivity Disorder
30-Minute Poster Session
Thomas W. Payne-Brewer
The purpose of the this study is to examine and describe the way that the developing brain responds to differently paced audiovisual content, specifically through the lens of brain wave activity. Participants, ages 5–10 years old, viewed a clip from a fast-paced film, a slow-paced film, or nothing while undergoing a QEEG. Observations from the data and implications drawn are primarily based on the comparison of the participants’ brain wave activity to a norming database and to that of the other participants.

10:30 am – 11:00 am
Program ID #521, Hall B1, Poster Area 9
Young Women’s College Life: A Wellness Perspective for Counselor Educators
30-Minute Poster Session
Cody W. Dickson
College is a time of developmental transition in the lives of female emerging adults. ACA, ASCA, and CACREP all have standards tied to wellness and focused on facilitating the college transition. As professional counselors, we are charged with tackling the issues of transition and retention of students to college. Learn what female college students have to say about their transition to college from single-sex high schools, what they wish they had known, and what we can do to prepare them socially and emotionally for college life.

10:30 am – 11:00 am
Program ID #522, Hall B1, Poster Area 10
Global Partnerships: Bringing the World to Your University
30-Minute Poster Session
Jacob W. Sandman, Shaun D. Mewes, Douglas R. Tillman, David D. Hof
Mental health counseling students and faculty will gain an understanding of a global model of international research,
including building relationships with international universities and the steps required for successful research partnerships.

10:30 am – 11:00 am
Program ID #523, Hall B1, Poster Area 11
Human–Animal Interactions in Counseling Interest Network: Mission and Vision
30-Minute Poster Session
Lauren Bruneau, Leslie Stewart, Carlene Holder Taylor, Connie Couch,
The Human–Animal Interactions in Counseling (HAIC) Interest Network currently has over 600 members, and interest in implementing animal-assisted interventions (AAIs) into counseling practices is growing rapidly. Members and other interested persons are often curious about how to get started with AAIs. This presentation aims to familiarize attendees with tenets of the HAIC Interest Network and to promote the professionalization of AAIs to enhance the welfare of animals, counselors, and clients involved.

10:30 am – 11:00 am
Program ID #524, Hall B1, Poster Area 4
Supervision Experiences Regarding Secondary Traumatic Stress in Child Trauma Therapy
30-Minute Poster Session
Brooke Wymer, Jennifer Deaton
The study sought to examine the supervision experiences of counselors providing treatment to child survivors of sexual abuse related to secondary traumatic stress responses. Consensual qualitative research methodology (Hill et al., 2005) was utilized to capture the experiences of counselors undergoing the phenomena. Domains, core ideas, and cross-analysis results derived from the data will be reported. Implications for future research, counselor educators, and clinical supervisors will be discussed.

11:30 am – 12:00 pm
Chi Sigma Iota Featured Session
Program ID #526, Hall B1, Poster Area 2
An Analysis of Counseling Organization Mission Statements from Around the Globe
30-Minute Poster Session
Georgina Hanna, Deborah L. Duenyas
This poster presentation will display a rich variety of counseling mission statements, each with a unique history and vision for the counseling profession in its region of the world (e.g., The British Counseling Association, Kenya Association for Professional Counsellors). Presenters will identify patterns and differences found across mission statements to better prepare globally-minded counseling professionals, students, supervisors, and educators.

11:30 am – 12:00 pm
Program ID #527, Hall B1, Poster Area 3
Student Perceptions of Reparation Measures by Universities
30-Minute Poster Session
Kathryn VanDehei
In this presentation, the researcher takes a closer look into the use of reparations to help undermine existing barriers to college access for the African American community by exploring the attitudes of university students toward those reparations. Additionally, this presentation will analyze and compare data collected both before and after the widely publicized violence that took place during the protests in Charlottesville, Virginia, in 2017.

11:30 am – 12:00 pm
Program ID #528, Hall B1, Poster Area 4
Wellness as Applied to Stress, Coping, and Resiliency: School Counseling Implications
30-Minute Poster Session
Stefanie Schneider
Wellness lends itself to a state of being, rather than an end result. The use of practical skills regarding coping, resiliency, and stress are key when progressing toward optimum states of wellness. School-age youth require attention to all three areas. So, what are school counselors doing to address students’ social and emotional needs? This session explores current peer-reviewed research in conjunction with qualitative analysis. Connections to research and avenues for application within a school setting are presented.

11:30 am – 12:00 pm
Program ID #529, Hall B1, Poster Area 5
From Being Sexually Victimized to Emotionally Revictimized
30-Minute Poster Session
Johana Rocha, Clara Adkins
Revictimization involves exposing survivors of sexual victimization to a secondary victimization, which can be in the form of repetitive sexual abuse, neglect, or emotional abuse. Thus, uninformed counseling practices may potentially contribute to emotional revictimization. This poster session will provide information about revictimization and strategies to deliver competent counseling practices to survivors of sexual victimization to avoid revictimization from occurring in the counseling setting.

11:30 am – 12:00 pm
Program ID #530, Hall B1, Poster Area 6
Using Personality Assessments in Career Discovery
30-Minute Poster Session
Lauren E. LaFleur, Elizabeth C. Sandridge
This poster aims to provide counselors with techniques and tools to guide clients in career exploration with personality assessments. By using the data gathered from these assessments, counselors can assist clients in broadening their career possibilities and their personality’s strengths and weaknesses. The knowledge gained could also benefit other areas of life that the client wants to improve.

11:30 am – 12:00 pm
Program ID #531, Hall B1, Poster Area 7
Exploring Impact of Social–Emotional Growth on Academia and Learning Abilities
30-Minute Poster Session
Pradyuna Shinde, Alexandra Levin, Carolina Espin
Educators emphasize social–emotional growth in school settings throughout the school year. Evidence shows that growth in social–emotional areas of brain impacts other areas of the brain significantly. This growth in social–emotional area leads academic improvement on students’ performance. This presentation will discuss case studies along with impacts of social–emotional growth on academic performance and improved learning abilities through a neuro-scientific counseling approach.
intervention to address students' attention problems.

At school, attention problems are an issue school counselors can potentially address. However, no evidence-based intervention is currently designed specifically for school counselors to address students' attention problems. In this presentation, the presenter will present a study result of school counselors using a mindfulness program to address students' attention problems. In this presentation, the presenter will present a study result of school counselors using a mindfulness program to address students' attention problems. In this presentation, the presenter will present a study result of school counselors using a mindfulness program to address students' attention problems.
brain development, neurobiology, and psychopharmacology as they interact in adolescents. Counselors will explore their roles as advocates for medicated minors as well as the ethics of their involvement and support for medicated minors.

2:00 pm – 2:30 pm
Program ID #541, Hall B1, Poster Area 5
**Designing and Implementing Career Development Groups in K–12 settings**
30-Minute Poster Session
*Lisa D. Falco*
Career development groups can be an efficient and effective way to meet students' educational and postsecondary planning needs. This poster session will provide important, up-to-date information about designing and implementing career development groups in K–12 settings. Developmental and ethical considerations such as career maturity, decision-making skills, culture, gender, ability, and economic inequality will be addressed. Implications for school counseling research and practice will be discussed.

2:00 pm – 2:30 pm
Program ID #543, Hall B1, Poster Area 7
**Social Media Usage and Impact Among College Students With Disabilities**
30-Minute Poster Session
*Ni Gao, SunHee J. Eissenstat*
This poster describes social media usage of students with disability (SWD). Almost every college students use social media, and SWD may use it more, considering that it provides nonphysical space for social interaction. However, positive and negative aspects of social media have not been explored. This poster will inform you of how counselors can guide SWD with social media use to enhance core areas of college life, including academic, social, and career development.

2:00 pm – 2:30 pm
Program ID #544, Hall B1, Poster Area 8
**School-Based Mental Health: Ins and Outs of Practicing Mental Health Counseling in a School Setting**
30-Minute Poster Session
*Blake Sandusky*
School-based mental health counselors practice in a unique environment. There are distinctive needs for a mental health professional in a school setting to be successful. These include excellent communication skills, a consistent ethical decision-making focus, and flexibility. Unique aspects of practicing mental health counseling in a school setting will be discussed, with suggestions for overcoming possible hurdles.

2:00 pm – 2:30 pm
ACCA Featured Session
Program ID #545, Hall B1, Poster Area 9
**Job Stress and Burnout Among College Counselors and Student Affairs Professionals**
30-Minute Poster Session
*Patrick R. Mullen, Adam P. Denney, Sean Newhart*
Turnover among college counseling and student affairs staff is a critical concern. In this study, we examined job stress and burnout in relationship to job satisfaction and turnover intentions in a sample of college counselors and student affairs professionals. We found that higher levels of job stress and burnout predicted job dissatisfaction and increased turnover intentions. We will discuss the literature related to this topic, the findings from our study, and implications for practitioners and future research.

2:00 pm – 2:30 pm
Program ID #546, Hall B1, Poster Area 10
**Effects of Mindfulness on Counselor Trainees’ Multicultural Counseling Competence (MCC) and Ethnocultural Empathy**
30-Minute Poster Session
*Bethany Elise Smith*
Learn about the effects of a brief mindfulness intervention on counselor trainees’ self-reported multicultural counseling competence and ethnocultural empathy. This poster presentation contributes to the use of innovative methods for teaching multicultural topics in graduate training.

2:00 pm – 2:30 pm
Program ID #547, Hall B1, Poster Area 11
**“Mom Said I'm in Charge”: Sibling Aggression as a Family Disease**
30-Minute Poster Session
*Victoria Cunningham, Stephanie L. Byer*
This poster will provide an opportunity for increased awareness of the prevalence and impact of sibling aggression on children and families. The presentation will address the importance of recognizing sibling aggression, identify the need to treat sibling aggression within the family system, propose an adaptation of a decision-making model, and consider treatment options for family therapy.

2:00 pm – 2:30 pm
Program ID #548, Hall B1, Poster Area 12
**A National Study of Asian International Students’ Mental Health Status**
30-Minute Poster Session
*Yiying Xiong*
The number of Asian international students in American higher education institutions has increased exponentially. However, limited attention has been paid to their mental health from researchers. Therefore, this quantitative research investigates Asian international students’ mental health by using a nationwide sample, incorporating several indicators of mental health, and using confirmatory factor analysis to analyze the data of two comparison groups.

3:00 pm – 3:30 pm
Chi Sigma Iota Featured Session
Program ID #549, Hall B1, Poster Area 1
**Counseling Infants: Counselor Identity with a Markedly Vulnerable Population**
30-Minute Poster Session
*Nina Veronica Medyk, Sondra Smith-Adcock*
Despite rudimentary levels of communication and processing, infants experience stress and trauma. Interventions with infants should not be underestimated, as the brain is particularly...
malleable during this time. This poster presentation will engage attendees in a collaborative dialogue of the ways counselors can play a salient role in positively impacting the infant population with prevention approaches, infant specific evidence-based interventions, specializations, and advocacy initiatives.

3:00 pm – 3:30 pm
Chi Sigma Iota Featured Session
Program ID #550, Hall B1, Poster Area 2
Wellness…What Time?
30-Minute Poster Session
Susan Clase, John J.S. Harrichand, Claudette A. Brown-Smythe
Finding time for wellness is a common problem among counseling students, counselors and counselor educators. Attendees of this session will learn the results of a study involving graduate students perceptions and practices of wellness pre and post education and practice sessions. The purpose of this study is to evaluate ways to better integrate wellness education and practice into counselor education programs.

3:00 pm – 3:30 pm
Program ID #551, Hall B1, Poster Area 3
The Creative Spirit of Cross-Cultural Exchange
30-Minute Poster Session
Leslie Contos
Cross-cultural exchange promotes creative growth! The presenter will share information on two recent immersion experiences in Thailand and on a Native American reservation. Learn about the role our professional associations play in promoting the growth of counseling worldwide. Connect with resources such as NBCC-International, ACA’s International Counseling Interest Network, and Fulbright programs, which offer opportunities for your own cross-cultural exchange.

3:00 pm – 3:30 pm
Program ID #552, Hall B1, Poster Area 4
Counselor Identity and Mindfulness Practices: Awakening to the Present Moment
30-Minute Poster Session
Beth A. Guzi
Counselor identity can be cultivated and strengthened with mindfulness practices. Beginning meditators often struggle with distractions and need assistance in finding the best tools to sustain their practice. Demystifying mindfulness starts with awareness of the breath, changing daily habits, and noticing when your mind has wandered. This session provides practical information to learn about mindfulness resources and instruction in ways to be mindful in everyday activities.

3:00 pm – 3:30 pm
Program ID #553, Hall B1, Poster Area 5
Social Justice Behavior in Counselors: Reports From a National Survey
30-Minute Poster Session
Alexander W. Fietzer, GoEun Na
Our poster presents research from a national survey of professional counselors regarding their engagement in social justice behavior, including type and frequency. We present those factors that are most predictive of social justice engagement by counselors, including broad personality traits; demographic variables; and factors such as training, geographic location, and exposure to diversity. Implications and conclusions for counselors will be discussed.

3:00 pm – 3:30 pm
Program ID #554, Hall B1, Poster Area 6
The Effects of Perceived Encouragement During Adolescence on Female Career Choice
30-Minute Poster Session
Mary L. Doyle Troy
Encouragement is one of the least studied factors in female career development. Learn the definition of encouragement and how it affects career choice for females. Examine barriers to career choice and how adolescent females navigate those barriers by identifying forms of encouragement. Examine the impact of family, educator, and peer encouragement on female career choice.

3:00 pm – 3:30 pm
Program ID #555, Hall B1, Poster Area 7
Investigating Resiliency Among At-Risk Youth Living in Urban Underserved Communities
30-Minute Poster Session
Kevin A. Curtin
The purpose of this presentation is to report on the findings of an investigation of resilience among students with emotional and behavioral disorders who live in urban underserved communities. Findings include the discovery of unique factors and emerging themes based on the distinctive attributes of this population. Implications for strength-based treatment, as well as recommendations for future research, will be highlighted.

3:00 pm – 3:30 pm
Program ID #556, Hall B1, Poster Area 8
Acculturation in Higher Education Among Immigrant, Refugee, and International Students
30-Minute Poster Session
Hodan Ahmed, Dolly Menong Her, Suzanne Komanski
Refugees and international students face acculturation stress when adjusting to an unfamiliar social environment, stretched family dynamics, foreign customs & tradition. This study focuses on the difference in acculturation between immigrant & international students. Results indicate the role of acculturation as a mediator between students’ heritage & the dominant culture. This outcome can help college counselors better understand the difference in acculturation stress between immigrant & international students.

3:00 pm – 3:30 pm
Program ID #557, Hall B1, Poster Area 9
Stress on College Campus: Examining Gender and Ethnicity
30-Minute Poster Session
Shu-Ching Wang, Angela Wong, George A. Loftis, Yuh-Jen Guo
College students are known to endure high levels of stress due to multiple developmental and environmental factors. The heightened stress causes students to choose maladaptive coping mechanisms, such as drugs and alcohol, resulting in poor academic performance and mental illness. A study examined the stress on campus and surveyed 95 college students. Its outcomes
indicate significant differences between gender and among ethnicity groups on anxiety score.

3:00 pm – 3:30 pm
Program ID #558, Hall B1, Poster Area 10
**Fostering Student Self-Efficacy: Implications for Program Design**
30-Minute Poster Session
Seungbin Oh, Noyoung Kim, Caitlyn M. Bennett
Counselor education programs are designed with the development of students’ counseling self-efficacy (CSE) in mind (or they should be). This study explored the pattern of change in students’ (N = 373) CSE over time and how several demographic variables impacted this change. Results indicated that students’ gender and ethnicity significantly predicted their rate of CSE change during their preparation program, which has several implications for the design of counselor education programs.

3:00 pm – 3:30 pm
Program ID #559, Hall B1, Poster Area 11
**AVATARS: Using Virtual Simulation to Train Counseling Students**
30-Minute Poster Session
Olivia Uwamahoro
Counselor educators are tasked with training competent counselors. Part of being a competent counselor is having the adequate counseling skills to effectively work with clients. This presentation will address the outcome of incorporating advanced technology while teaching prepracticum counselors-in-training (CITs). More specifically, the presenter will discuss the effects of simulation training on the development of CITs enrolled in a counseling techniques course.

3:00 pm – 3:30 pm
Program ID #560, Hall B1, Poster Area 12
**The Civilian Counselor and Working With Veterans and Their Dependents**
30-Minute Poster Session
Jessica M. Tyler, Dylan Gunther
Working with military populations and trauma is understudied, leaving much to be known about the unique mental health needs of veterans and their dependents. Civilian practitioners must establish credibility and trust in order to find treatment efficacy with this population. This presentation reviews the multilayered needs and mechanics of working with veterans and their dependents and of addressing military trauma.

4:00 pm – 4:30 pm
**Chi Sigma Iota Featured Session**
Program ID #561, Hall B1, Poster Area 1
**Describing the Impact of our Work as Professional Counselors: Shared Voices**
30-Minute Poster Session
Devyn Savitsky, Tamarine Foreman
As counselors, we open our minds and hearts as we listen with empathy to stories of tragedy, devastation, and betrayal. When we engage empathically with students or clients who have experienced trauma, we open the door to experience vicarious traumatization and the opportunity for posttraumatic growth. Yet, how do counselors describe how they are impacted by their work as a counselor? Please join us to see the range of answers we received and learn more about the commonly described themes that were gleaned from this content analysis.

4:00 pm – 4:30 pm
Program ID #562, Hall B1, Poster Area 2
**Professional Advocacy in Action: Assessing Outcomes of a Statewide Advocacy Training**
30-Minute Poster Session
Margaret A. Taylor, Melanie Iarussi
Professional advocacy is an essential component in the counseling profession. This study investigated the outcomes of a 1-day professional advocacy training. Data were collected from surveys and a focus group. This study found that a single statewide meeting was not effective in significantly increasing participants’ advocacy competency. Analysis of focus group data resulted in five themes that describe how the training influenced participants. Suggestions for future research and advocacy trainings are discussed.

4:00 pm – 4:30 pm
Program ID #563, Hall B1, Poster Area 3
**Choose It or Chance It: Relationships of Locus of Control, Religiosity, and Resilience**
30-Minute Poster Session
Monica St. George, Danielle Niemela
Understanding resilience proves crucial for early intervention and treatment for mental health counselors working with clients. This study explored the relationships between locus of control, religiosity, and resilience in an effort to better inform clinical practice. Results show correlations, predictors, and covariance among the variables, the knowledge of which will help mental health counselors promote client resilience by encouraging a healthy locus of control informed by the client’s level of religiosity.

4:00 pm – 4:30 pm
Program ID #564, Hall B1, Poster Area 4
**A Case Study and College Choice Spectrum of First-Generation African American Students**
30-Minute Poster Session
Jennifer R. Curry, Imre (Emeric) Csaszar
This case study, based on social capital theory, examined the factors and skills that influenced the prospective college choices of African American high school students who would be first-generation college students. Data included transcripts, journals, and memos collected from students who attended a college tour immersion. The tours included six HBCUs and seven PWIs in the southeastern U.S. Through analysis of interviews, factors that the students considered when weighing their college options were identified.

4:00 pm – 4:30 pm
Program ID #565, Hall B1, Poster Area 5
**Effects of Integrated Primary Behavioral Health Care (IPBH) for Adults With Substance Use Disorders**
30-Minute Poster Session
Richard S. Balkin, Stephen Lenz, Halie M. Gregory, Miranda N. Rines, Katelyn E. Swinford
We present a meta-analysis on the use of integrated primary and behavioral health care compared to treatment-as-usual approaches for adult patients in primary care with substance use. Effects of IPBH were low to negligible, with the exception of when patients were diagnosed with chronic health problems. Though preliminary, IPBH appeared to have a negligible effect in treating substance use when compared to other treatments in primary care settings.

Human capital theory (HCT) is an applicable, universal theory to intergenerational mobility, first-generation college students (FGCS), and postsecondary education. To support intergenerational mobility, universities must promote the use of educational technology for rural students and avoid the adverse effects of globalization that may hinder the assumptions of HCT and intergenerational mobility of FGCS.

**4:00 pm – 4:30 pm**
**NCDA Featured Session**
Program ID #566, Hall B1, Poster Area 6
**Fostering Change & Innovation: Field Insight Around How to Have an Impact in Practice**
30-Minute Poster Session
Kristin Wakefield

This poster outlines a case study demonstrating how an inter-organizational partnership became highly effective as a result of extensive collaboration and integrated resources. Partnerships driven by experiential education have the potential to provide long-term solutions to a multitude of current social issues: quality and credibility of education; student debt; economic development (workforce/gainful employment); community engagement; and mental health (self-esteem, confidence, and self-gratification).

**4:00 pm – 4:30 pm**
**Program ID #568, Hall B1, Poster Area 8**
**There’s an App for That: Using Technology With Children and Adolescents**
30-Minute Poster Session
Jo Lauren Weaver, Jacqueline Swank

This presentation focuses on modern technology that is accessible to children, adolescents, and counselors working with the population. The presenters will share various types of technology, discuss ethical considerations for using technology with children and adolescents, and present strategies for integrating technology within counseling.

**4:00 pm – 4:30 pm**
**Program ID #569, Hall B1, Poster Area 9**
**First-Generation College Students’ Success and Intergenerational Social Mobility**
30-Minute Poster Session
Elizabeth Suzanne Thraen Balderas, Amanda M. Kendrick

**4:00 pm – 4:30 pm**
**Program ID #570, Hall B1, Poster Area 10**
**Rude, Dishonest and Miserable—Exploring Law School Culture and Student Mental Health**
30-Minute Poster Session
Kathryn VanDehei

Even with the widely accepted belief that those in the legal profession experience a higher rate of mental health problems than in other professions, little has been done to address these issues. This presentation will present the findings of a mixed-methods study on the culture of law school and its impact on law students’ mental health. Presenters will discuss the positive changes that can be made to better meet the mental health needs of clients in the legal field, promoting individual and societal well-being.

**4:00 pm – 4:30 pm**
**Program ID #571, Hall B1, Poster Area 11**
**Am I Really a Multiculturally Competent Counselor?**
30-Minute Poster Session
Jeongeun Park

This session will suggest implications for mental health counselors, counselor education, and future research in terms of multicultural competency training.

**4:00 pm – 4:30 pm**
**Program ID #572, Hall B1, Poster Area 12**
**Cultural and Linguistic Awareness Support Services in Counseling: An Internship Project**
30-Minute Poster Session
Angie D. Cartwright, Chandra Donnell Carey

The purpose of UNT Classic is to address the mental health workforce shortage and enhance the delivery of culturally competent mental health services for underserved communities through the development and implementation of culturally competent, interprofessional education and training of graduate students and professionals. The students and faculty of UNT Classic will share their strategies for external funding and creating meaningful experiences for students working with underserved communities.
This presentation aims to disseminate the results of a program evaluation a Counselor Wellness Series designed to fill the gap of self-care practices that are emphasized in counseling programs. The program teaches effective methods, such as yoga and breath work, in order to promote reduction of compassion fatigue and burnout and improve wellness. Data collected will be used to inform the efficacy of developing similar wellness programs in counseling departments.

Counselors’ Experiences of Interpersonal Stress in the Therapeutic Relationship
C. Missy Butts

There are few research studies that have investigated how the unique qualities of the therapeutic relationship negatively affect counselors and contribute to counselor stress. This poster will present research findings of a qualitative study that explored counselors’ experiences of interpersonal stress in the therapeutic relationship and will provide implications for professional counselors, counselor educators, and counselors-in-training.

Ambassadors for Autism: Programs for Autism Awareness, Education, and Advocacy
Jenny Debevec, Patricia Van Velsor

One of the most vulnerable populations are the autistic. Geek Club Books has developed two innovative programs to capture and engage this specific demographic. Geeks on the Go is a book club that focuses on promoting friendship and social skills among individuals on the autism spectrum and their peers. This program aims to break down stigmas and improve attitudes towards autism by creating a fun and supportive environment for all. The second program, Geek and Sensory Friendly, is a series of events and workshops that incorporate sensory-sensitive activities to engage individuals with autism and accommodate their needs. These programs will be discussed in detail, along with the impact they have made on the autistic community.

Barriers and Facilitators of Job Retention of People With Disability
SunHee J. Eissenstat

This poster examined traditional person–environment match variables (job skill, job education level, and job aptitude match), along with variables that match the disability-related needs of employees with disability (accessible facilities and discrimination) to explain job satisfaction—and, consequently, job tenure—using nation-level data of people with disability from South Korea. It will discuss the application of the theory of work adjustment to a diverse population; in this study, people with disability.

Students at Hispanic-Serving Institutions
Tiffany A. Wilson

This interactive poster session will describe a mixed-method (explanatory sequential) investigation focused on questions surrounding the underutilization of disability services among Latino undergraduates attending Hispanic-serving institutions (HSIs) in the United States, Puerto Rico, and the Virgin Islands. Trends associated with higher education, particularly among HSIs, Latino students with disabilities who attend HSIs, and the lived experiences of HSI disability services administrators will be examined.

To Swipe or Not to Swipe? The Ethics of Dating Apps
Michelle E. Wade

Tinder, Grindr, Her, Bumble, OkCupid . . . the list of dating apps goes on and on. These applications allow individuals to connect with others who are seeking the same types of relationships and/or interactions as they are. They also allow one to be rather vulnerable and transparent about who they are and allow a quick glance into possible “deal breakers.” However, as counselors/counselors-in-training/counselor educators/supervisors, are we putting ourselves at a greater vulnerability by using these applications?

Swank (2018). The focus of this poster will be to learn the rational and benefits of integrating nature and group counseling and how this intervention is directly related to The Wheel of Wellness model (Sweeney & Witmer, 1991). Also, the attendees will learn strategies and activities on how to integrate nature and natural materials into child group counseling sessions, including ethical and legal considerations. Lastly, the presenters will share their experiences on the

Nature-Based Group Counseling: An Innovative Approach for Promoting Wellness Among Children
Ashley Diaz, Sang Min Shin, Karina Hernandez, Sedrick R. Deal, Jr.

This poster presents a nature-based group counseling intervention for children adapted from Swank and Swank (2013) and Shin and Swank (2018). The focus of this poster will be to learn the rational and benefits of integrating nature and group counseling and how this intervention is directly related to The Wheel of Wellness model (Sweeney & Witmer, 1991). Also, the attendees will learn strategies and activities on how to integrate nature and natural materials into child group counseling sessions, including ethical and legal considerations. Lastly, the presenters will share their experiences on the

Chi Sigma Iota Featured Session

Program Evaluation of a CSI Sponsored Wellness Intervention in Counseling Students
Thomas Mitchell Toomey

This poster will share literature about comprehensive school counseling programs and the results of an exploratory study using national data to compare RAMP and non-RAMP schools. Attendees will understand the social justice implications of this study for K–12 students, school counseling practice, and counselor education.
The focus is on “abilities” instead of “disabilities” and “similarities” over “differences.” Feedback has included scores of 4.9 out of 5, with teachers and students enthused. In addition, plans to expand the program include career opportunities for autistic adults.

8:00 am – 8:30 am
Program ID #581, Hall B1, Poster Area 9
The Art of a Breakup: A Group Therapy Model
30-Minute Poster Session
Emily Rush McClintock, Kevin A. Curtin
Breakups are experienced by a huge number of undergraduate students of all genders, and support after a breakup can be hard to find. Creating a support group that mixes creative arts therapy and psychoeducation allows group members the space to communicate when they are not otherwise able and the space to learn from their experiences in a nonstigmatizing, collaborative way.

8:00 am – 8:30 am
Program ID #582, Hall B1, Poster Area 10
Preparing Counselors to Work Effectively With At-Risk Populations
30-Minute Poster Session
Jonathan Ohrt, Kathryn Linich
In this program we will present the components of a training program to prepare counselors to work with at-risk populations. We will discuss the preparation, implementation, and evaluation of the training program, which included a focus on (1) evidence-based practices, (2) interdisciplinary collaboration, (3) primary care integration, and (4) action research. We will discuss implications for counselors, counselor education training programs, and clinical supervisors who work with at-risk populations.

8:00 am – 8:30 am
Program ID #583, Hall B1, Poster Area 11
The Impact of a Group Intervention on Adult Survivors of Childhood Trauma
30-Minute Poster Session
Jennifer M. Foster
This poster presents an investigation of the efficacy of a group counseling approach for adult survivors of trauma (N = 116). You will be introduced to the 10-session manualized curriculum and explore the statistically significant results measured at baseline (waitlist), pregroup, postgroup, and 1 year after group completion. Participants demonstrated improved mental health, reduced trauma symptomology, increased spiritual well-being, and a heightened capacity to forgive. Implications for practice will be shared.

8:00 am – 8:30 am
Program ID #584, Hall B1, Poster Area 12
Racial Identity, Racism-Related Stress, and Self-Esteem in the Black Girl Magic Era
30-Minute Poster Session
Patrice Leopold
The purpose of this presentation is to explore how racism-related stress negatively affects the health and self-esteem of Black young women. The concepts of racial identity, racial socialization, and intersectionality, as well as their implications for reducing racism-related stress among this population, will be discussed. Finally, participants will learn how to integrate these concepts into clinical work with minority youth, specifically Black adolescent girls.

10:30 am – 11:00 am

Program ID #586, Hall B1, Poster Area 2
Wellness Counseling and Ethics: 50 Tips and Tricks for Helping the Helper Stay Well
30-Minute Poster Session
Rebecca G. Taylor, Darrell D. Ford, Derrica Battle, Dana Unger, Shenika Jones
Many everyday things can interfere with counselors’ wellness, and some specific hazards are associated with working in a mental health profession (e.g., vicarious trauma, compassion fatigue, burnout). Counselors are ethically required to meet their own wellness needs so they are able to maintain effective counseling practices. Participants will be provided with 50 practical activities to increase their own wellness in five areas: emotional, social, spiritual, intellectual, and physical.

10:30 am – 11:00 am
Program ID #587, Hall B1, Poster Area 3
Does Language Matter? Veterans’ Attitudes Toward Seeking Professional Help
30-Minute Poster Session
Shelby Coen, Darcy Haag Granello
Language can shape perception and influence cognitive processes. Seeking professional psychological help has been stigmatized in military culture, and veterans often do not seek treatment for mental health concerns. Language used to describe mental health professionals (e.g., counselor, psychologist) may contribute to attitudes toward seeking professional psychological help. The researchers identified differences in attitudes depending on the terminology describing the mental health professional.

10:30 am – 11:00 am
Program ID #588, Hall B1, Poster Area 4
Experiences of Privilege and Oppression of Queer Men of Color in Counselor Education
30-Minute Poster Session
Christian D. Chan, Sam Steen
Utilizing an intersectionality paradigm and methodological strategies from interpretative phenomenological analysis, this study examined the lived intersectional experiences of privilege and oppression of queer men of color in counselor education and supervision doctoral programs. Co-constructing a collaborative dialogue with the audience, the presenter will discuss findings from six superordinate themes associated with strategies for systematically enhancing the praxis of counselor education.

10:30 am – 11:00 am
Program ID #589, Hall B1, Poster Area 5
An Exploration of Counselor Education Doctoral Students Supervising Across Tracks
30-Minute Poster Session
Christopher J. Hipp
The focus of this study is the growing trend of doctoral students providing supervision to graduate-level students from discipline tracks that are different from the doctoral students’ counseling experience and/or background. This phenomenological look at the subjective nature of these doctoral students expands insight into how doctoral student supervisors navigate their experiences.

10:30 am – 11:00 am
Program ID #590, Hall B1, Poster Area 6
Promoting Wellness in Refugee Populations
30-Minute Poster Session
Ashley J. Blount, Hannah E. Acquaye
This presentation will highlight counseling refugee populations via a holistic wellness model. Further, attendees will learn about general wellness, learn about wellness-related models of assessment, learn about refugee populations and risk factors to refugee wellness, and learn about implications for counseling refugee populations.

10:30 am – 11:00 am
Program ID #591, Hall B1, Poster Area 7
Relationship Between Internet Gaming Disorder and Personality According to Game Genre
30-Minute Poster Session
Chang Min Keum, Dong-il Kim
As games become more common among adolescents, addiction problems related to games are appearing. The types and genres of games have been diversified, but the current counseling approach to internet gaming disorder (IGD) has not been able to follow these developments. To prevent and treat IGD, it is necessary to examine whether there are difference features in game addiction and user personality according to game genre. Through this research, more specific counseling intervention strategies can be established.

10:30 am – 11:00 am
Program ID #592, Hall B1, Poster Area 8
Group Theraplay With Children and Adolescents: A Mixed-Methods Study
30-Minute Poster Session
Sondra Smith-Adcock
Group Theraplay is an innovative counseling approach that can be applied in schools and clinical settings. However, the evidence base for Group Theraplay with older children and adolescents at risk for mental health problems is newly explored. In this poster session, we will provide findings of a mixed-methods, rigorous, controlled study comparing Group Theraplay to social skills curricula in a therapeutic summer camp setting. Findings of the study and applications of Group Theraplay will be presented and demonstrated.

10:30 am – 11:00 am
Program ID #593, Hall B1, Poster Area 9
Exploring the Effects of Social Media on Decision Making in College Students
30-Minute Poster Session
Emel Bihorac, Alexander M. Fields
In an increasingly technological world, college students have access to an unmatched amount of information online, including social media. This conceptual presentation will provide attendees with an overview of how college students’ decision making may be influenced by social media. The potential impact of social media on a college-age client’s ability to engage in the therapeutic process and interventions will be addressed, and empirically supported recommendations will be explored.

10:30 am – 11:00 am
Program ID #594, Hall B1, Poster Area 10
Understanding Resiliency in Professional Counselors to Prevent Vicarious Trauma
30-Minute Poster Session
Sarah Flint, Margaret Taylor
Counselors in all clinical settings work with clients who have experienced trauma to some extent in their lifetime. When individuals who have experienced trauma seek counseling services, counselors are exposed to their clients’ traumatic experiences. This increased exposure, in turn, increases the counselors’ vulnerability of taking on their clients’ traumatic events. This poster will provide research results on maximizing resiliency to prevent vicarious trauma and subthreshold PTSD in professional counselors.

10:30 am – 11:00 am
Program ID #595, Hall B1, Poster Area 11
Using Creative Arts Modalities When Counseling Globally
30-Minute Poster Session
Mariaimee Gonzalez, Keiko Sano, Dani Baker
For creative arts cognate counselors/counselor educators/students, this poster explores how creative arts modalities can contribute to and be utilized when counseling globally. The poster will focus on the benefits of using creative art modalities to counsel, teach, and advocate globally, including examples of specific creative art activities used with different communities around the world.

10:30 am – 11:00 am
Program ID #596, Hall B1, Poster Area 12
Liberation Psychology: An “Old New” Approach to Work With Latinxs
30-Minute Poster Session
Edil Torres Rivera
This poster will describe liberation psychology as an “old new” approach to work with Latinxs in the United States. The authors
will describe liberation psychology’s roots, the foundational principles of this theory, and specific examples of where liberation psychology working with Latinxs. Finally, the author will provide an illustration of this theory in practice and discuss several key implications for liberation psychology’s implementation as a foundation for counseling for social justice.

*Chi Sigma Iota Featured Session*
Program ID #598, Hall B1, Poster Area 2
**Enhancing Community Development through Vocational Empowerment and Leadership Programming for Teenage Girls**
30-Minute Poster Session
Nora Maza, Brenda Cavazos, Jennifer Gerlach, Kristina Nelson,

Teenage girls at-risk for poor academic achievement and dropout due to limited vocational training and leadership opportunities were invited to participate in the VANTAGE (Vocational Awareness and Team-Based Girls Empowerment) program. The purpose of VANTAGE was to create a positive change in these young girls’ lives through vocational training, career exploration, leadership skill development, and mentorship from local women leaders. Outcome data from the program evaluation will be shared.

11:30 am – 12:00 pm
Program ID #599, Hall B1, Poster Area 3
**It Takes a Village: The Role of Peer Leadership Mentoring in Professional Development**
30-Minute Poster Session
C. Missy Butts

Peer leadership mentoring receives little empirical and professional attention, though it exists within the fabric of most counseling professional organizations. Finding strong leadership mentors may help students establish stronger professional identities and experience personal and professional growth. This program will describe the role of peer leadership mentors from three graduate student leader perspectives and outline characteristics and responsibilities of cohesive peer leadership mentoring.

11:30 am – 12:00 pm
Program ID #600, Hall B1, Poster Area 4
**Multicultural and Social Justice Competencies in Rehabilitation Counseling**
30-Minute Poster Session
Molly Tschopp

This presentation focuses on implementing the Multicultural and Social Justice Counseling Competencies (MSJCC; Ratts et al., 2015) within rehabilitation counseling. The MSJCC framework considers privileged and marginalized identities, counselor self-awareness, client worldview, counseling relationship, & counseling and advocacy competencies with a sociocultural model useful for conceptualizing multileveled interventions. MSJCC will be explored in relation to accreditation standards and codes of ethics.

11:30 am – 12:00 pm
Program ID #601, Hall B1, Poster Area 5
**Creativity in Cross-Cultural Supervision: The CANVAS Model**
30-Minute Poster Session
Whitney McLaughlin

Novice supervisors embarking on their first supervision experience often feel unprepared and worry that their supervision will become mundane for trainees. This poster presentation will introduce novice and experienced supervisors to a model that includes creative strategies and techniques grounded in supervision theory to facilitate supervisee growth and development in cross-cultural supervision.

11:30 am – 12:00 pm
Program ID #602, Hall B1, Poster Area 6
**A Counselor’s Role in the American Health Care System**
30-Minute Poster Session
Betsy Zimmerman

Approximately 43.6 million adults in the United States have a mental health diagnosis. Within the current political climate, the health care system is still in flux, and counselors are challenged to navigate the ever-changing landscape. This poster examines the impact of the health care system on counseling, calls professionals to take leadership roles through service and advocacy, and provides suggestions for the counselor’s daily practice.

11:30 am – 12:00 pm
Program ID #603, Hall B1, Poster Area 7
**ACES, Stress, Resilience, and Career-Search Self-Efficacy in Minority College Students**
30-Minute Poster Session
Autumn L. Randell, Lindsay Kozachuk, Nickolas Spears, Michael Deitz, Philip Gnilka

This poster discusses data from an online survey distributed to African American and Latinx college students on a large urban university campus. The study examines the relationship among adverse childhood experiences (ACES), stress, and resilience with career search-self efficacy. ACES have been associated with negative health and workforce outcomes. Minorities tend to have a higher prevalence of ACES, and the impact of ACES on career development has not yet been explored.
11:30 am – 12:00 pm
Program ID #604, Hall B1, Poster Area 8
**Advocating for Access: Pre-engagement Groups as an Alternative to Waitlists**
30-Minute Poster Session
*Stephanie J. Thorson-Olesen, Debra Murray*

With more people seeking services, many counselors face the turmoil of turning people to a waitlist. Instead of adding another name to that list, consider a pre-engagement group as an alternative. This poster examines the waitlist challenge and presents resources for a pre-engagement group, a simple solution to mental health care access. Additionally, current models are shared that include counselor educators, counselors-in-training and community partners.

11:30 am – 12:00 pm
Program ID #605, Hall B1, Poster Area 9
**An Investigation of Student-Athletes’ Mental Health Stigma Using SEM**
30-Minute Poster Session
*Saundra Marie Tabet, Glenn W. Lambie*

Student-athletes are a unique counseling population who need consideration before and when providing clinical services. However, there is a shortage of research on mental health in student-athletes, specifically mental health stigma (MHS) and how it is adverse to sports culture and its mentality. For these reasons, the presentation will review findings from an investigation examining student-athletes’ MHS to psychological well-being, help-seeking behaviors, and perceived performance in athletics and academics.

11:30 am – 12:00 pm
Program ID #606, Hall B1, Poster Area 10
**Benefits of Integrating Positive Psychology Into Counselor Education Programs**
30-Minute Poster Session
*Elda Kanzki-Veloso, Lori Moldovan, Carly Paro, Shannon Karl,*

The 2014 ACA Code of Ethics mandates counselor self-care throughout all levels of professional functioning. Counselors must role model and instill self-care across myriad clinical settings and varied client circumstances. Utilization of positive psychology enhances counselor education programs through encouragement of self-care and self-actualization. The presenters highlight the benefits of positive psychology for counselor educators, counselors in training, and clients.

11:30 am – 12:00 pm
Program ID #607, Hall B1, Poster Area 11
**Supporting Underserved Populations: Integrative and Trauma-Informed Approaches**
30-Minute Poster Session
*Brandee Appling, Malti Tuttle, Jessica Tyler*

Integrative and trauma-informed care approaches are vital components in the counseling field in order to support underserved populations. Research indicates that underserved populations receive limited or no access to counseling services. Therefore, the presenters will discuss how to navigate these disparities through collaboration between school and clinical mental health counselors.

11:30 am – 12:00 pm
Program ID #608, Hall B1, Poster Area 12
**Multicultural Counseling Evidence-Based Practices: Focusing on the Individual**
30-Minute Poster Session
*Matthew L. Nice, Natalie A. Drozda*

A multicultural identity contains many components and layers that make up an individual. Often, individuals’ multicultural identities are associated with a single cultural group to which they belong. Evidence-based practices can be tailored to treat the individual and not the ethnic group to which one belongs. This poster covers multicultural counseling practices and competencies from all areas of multicultural identity and will explore the latest evidence-based practices from an individual perspective.

4:00 pm – 4:30 pm
**Chi Sigma Iota Featured Session**
Program ID #609, Hall B1, Poster Area 1
**All Aboard the Marrakesh Counseling Express: Global Counseling Identity Development in Action**
30-Minute Poster Session
*Stephanie I. Pergantis, Mark Lepore, Michelle N. Saltis, Mallory Hilinski, Gina Mazzocchi*

Cultural immersion experiences are a part of many students’ education. In our global economy, these experiences may be vital to students securing a desired internship or gaining the necessary cultural skills to work with a desired population. Counselors in the United States can learn a great deal from other countries, such as Morocco, that are in the process of developing their own approach to counseling. This study will highlight seven students’ professional identity development over a cultural immersion experience.

4:00 pm – 4:30 pm
**Chi Sigma Iota Featured Session**
Program ID #610, Hall B1, Poster Area 2
**Fostering a Sense of Community: Managing a CSI Chapter in the Online Environment**
30-Minute Poster Session
*Marcia Blane, Rosanne Nunnery, Carrie Rye, Theresa Kascak*

This interactive discussion-based workshop will highlight the challenges and opportunities of a large Chi Sigma Iota Chapter on an online program. As more and more counselor education programs adopt the platform of online learning, fostering a sense of community with learners who desire to be part of an interconnected group is an important part of our commitment to promoting excellence in the profession of counseling. Be a part of the discussion as we share our best practices and lessons learned!

4:00 pm – 4:30 pm
**Chi Sigma Iota Featured Session**
Program ID #611, Hall B1, Poster Area 3
**The Efficacy of Interpretive Phenomenological Analysis (IPA) for Novice Researchers**
30-Minute Poster Session
*Pamela G. Riley*

The poster presentation will outline interpretive phenomenological analysis (IPA) as a potential method for novice researchers. Participants will gain an understanding of the theoretical foundation of IPA as well as the methods and steps for
Multisystemic therapy (MST) is derived from the social–ecological
theory (Henggeler et al., 1998), in which the risk and protective
factors of the systems are identified by their contribution to at-risk
behaviors (Schoenwald & Rowland, 2002). MST leaves a significant
gap in the individual and family systems where an integration
of MST and expressive arts can occur. This poster reviews the
literature to provide justification of the integration, limitations, and
practical examples of effective strategies.

4:00 pm – 4:30 pm
Program ID #616, Hall B1, Poster Area 8
Factors Related to Help-Seeking Attitudes
Among First-Generation College Students
30-Minute Poster Session
Nayoung Kim, Dalena Dillman Taylor, Seungbin Oh
The presentation informs attendees with factors affecting first-
generation college students’ help-seeking attitudes and the
relationship of help-seeking attitudes, stigma, perfectionism,
and mental health among first-generation college students. The
information will benefit counselors working with first-generation
college students in enhancing their help-seeking attitudes and
provide a guideline for college counselors and school counselors
on how to promote their mental health.

4:00 pm – 4:30 pm
Program ID #617, Hall B1, Poster Area 9
CPCE Predictors: Admissions, Program, and Training Implications
30-Minute Poster Session
Matthew Shurts
Many counseling programs use the Counselor Preparation
Comprehensive Examination (CPCE) as a capstone experience.
However, there is limited research examining CPCE results and
how to best predict student success on the exam (e.g., undergrad
GPA, GRE, demographics, various counseling course grades).
The purpose of this session is to share the results of an empirical
study that examined possible predictors of CPCE results (N = 625).
Implications for master’s programs and future research will be
discussed.

4:00 pm – 4:30 pm
Program ID #618, Hall B1, Poster Area 10
Identifying Teaching Competencies: A Delphi Study
30-Minute Poster Session
Jacqueline M. Swank
Counselor educators are responsible for training counseling
students to be ethical, professional counselors. Therefore, it is
crucial that doctoral students receive training that fosters the
development of teaching competencies. This presentation focuses
on discussing key areas of teaching competency.

4:00 pm – 4:30 pm
Program ID #619, Hall B1, Poster Area 11
Maternal Empowerment and Adjustment Among Mothers
Experiencing Birth Trauma
30-Minute Poster Session
Christan Horton
This presentation will provide attendees with an overview of the
relationship between maternal empowerment and adjustment
among mothers who have experienced birth trauma, birth defects,
and childhood disability. Attendees will learn about the shared maternal lived experiences of birth trauma, plan for continued research, interventions, and recommendations for rehabilitation counselors and professionals, counselor educators, practitioners, other allied health professionals, and the community at large.

4:00 pm – 4:30 pm
Program ID #620, Hall B1, Poster Area 12
Female Veterans: The Intersection of Substance Abuse, Military Sexual Trauma, and PTSD
30-Minute Poster Session
Cyrena W. Ivie
Learn about female military veterans and their unique experiences. Explore how military sexual trauma and PTSD in female veterans can contribute to substance abuse. Counselors who want to learn about how to assist the fastest growing population of veterans will find this topic helpful.

Sunday, March 31

9:00 am – 9:30 am

ALGBTIC Featured Session
Program ID #625, Hall B1, Poster Area 5
Best Practices in Working With Undocumented Transgender Clients
30-Minute Poster Session
Whitney P. Akers, Mickey E. White
The current sociopolitical climate has left many counselors unsure of how to effectively serve a highly vulnerable population: undocumented transgender individuals. Through culturally responsive counseling and transition considerations, this informative poster uses available literature and the Multicultural and Social Justice Counseling Competencies to provide suggestions for working with undocumented trans clients and communities.

EcoWellness: The Natural Approach to Counselor Self-Care
30-Minute Poster Session
Ryan F. Reese
Clinicians need restorative and sustainable self-care strategies. Numerous studies support humanity’s biophilic tendency to spend much of its self-care time in and around natural settings. Connection with nature has been shown to decrease stress, enhance focus, and bolster holistic wellness. The purpose of this program is to introduce attendees to the EcoWellness model, its underlying research, and nature-based strategies that can be applied both in counseling practice and counselor self-care.

Program ID #630, Hall B1, Poster Area 10
Clash of Generations: Attitudes Toward Tattoos in Counselor Education
30-Minute Poster Session
Philip S. Mullins, Mary Alice Bruce
Our quantitative national study explored current attitudes of doctoral students, faculty, and administrators regarding tattoos in counselor education. As tattoos’ popularity grows in current society, prevalence increases in counselor education. Our interactive poster session offers the results of our study, implications for hiring practices, and considerations for professional acceptance of tattoos.

Program ID #631, Hall B1, Poster Area 11
Outcomes of LGBTQ+ and Religious Identities on Self-Concept and Well-Being
30-Minute Poster Session
Payton Bruland, Mollie Pierce, Angela Maccarrone
This interactive poster session aims to explore the correlations between LGBTQ+ and religious identities, self-concept, and well-being of students within a Jesuit Catholic university. The session will provide an overview of the study design and results, along with implications for counselor education, clinical practice, and future research. The importance of this research for culturally competent counseling will be discussed.

9:00 am – 9:30 am
Program ID #632, Hall B1, Poster Area 12
Coping With Racial Discrimination: Confronting vs. Passive Acceptance
30-Minute Poster Session
Ying Yang
Past studies have begun to call scholarly attention to the effect of individual factors such as trait anxiety on coping with racial discrimination as well as the importance of studying specific coping strategies. This poster presents an experimental study on examining the moderating role of trait anxiety in evaluating the effectiveness of two coping strategies (confronting vs. passive acceptance) for coping with racial discrimination. Implications for counselors and researchers will be provided during the presentation.

Sexual Culture on College Campuses: A Photo-elicitation Study of Women’s Perspectives
30-Minute Poster Session
Christina McGrath Fair
Rates of sexual assault on college campuses have been consistent for several decades and are higher than the national average in spite of programming aimed at prevention. One of the most comprehensive policies on sexual assault was created at Antioch college over 30 years ago. A unique factor of that policy is that it was created by a group of female students. Perhaps it is time to privilege the female voice again. This presentation focuses on women’s perspectives of sexual culture on campus and what and how they feel needs to change.

Program ID #636, Hall B1, Poster Area 4
The Highly Sensitive Person Scale Can Be Used for Screening . . . and a Whole Lot More!
30-Minute Poster Session
Heather L. Smith
Highly sensitive people unite! Did you know that those with the temperament trait sensory processing sensitivity (SPS) represent 20% of the population but 50% of those who seek counseling? Come to this session to learn what is known through a systematic review and synthesis of the research on the Highly Sensitive Person Scale (HSPS). Leave with an understanding of the highly sensitive person (HSP), ideas to advocate and work with them, including the best way to screen to determine whether you are, a client is, or a loved one is an HSP.

10:00 am – 10:30 am
Program ID #637, Hall B1, Poster Area 5
Using Crowdsourcing Websites in Counseling Research: Problems and Potential of MTurk
30-Minute Poster Session
Mary Margaret Livingston, Margaret L. Hindman
Online recruitment sites such as MTurk have revolutionized social science research. Counselors are just beginning to access the tool’s potential. The poster examines literature on MTurk and critically considers ethics, pros and cons, and promising research applications in counseling. It displays how MTurk samples represent more diversity through a broader range of inclusion of demographics, personality, psychopathology, and substance use. The poster includes use in teaching and novel uses beyond questionnaires.

Food Insecurity and Body Image Concerns Among College Athletes
30-Minute Poster Session
Mandy L. Perryman, Melissa Spencer
Food insecurity among college athletes is not uncommon; however, it is often overlooked in the literature. Conversely, body image in sports is often researched, though not usually as how those concerns pertain to being an athlete. This session will explore research findings in food insecurity and body image concerns among college athletes. For many, college athletics offers tremendous opportunities along with a dramatic lifestyle shift. Perhaps this is when counseling support is needed the most.

Program ID #643, Hall B1, Poster Area 11
Female Voices in Counseling: Celebrating Women’s Contributions to Our Field
30-Minute Poster Session
BethAnne Swick, Tina Back
The purpose of this poster presentation is to celebrate the works of female theorists. Most counselor preparation programs do a competent job of teaching the counseling ideas of male theorists. Powerful women have made significant contributions to the advancement of counseling practice in a variety of schools, such as psychodynamic, interpersonal, and cognitive–behavioral perspectives, as well as to the development of career counseling theory. This program examines these contributions.

Promoting Professional Resiliency
30-Minute Poster Session
Julie Ballew
We are all wounded healers. Learn about the fundamentals of compassion fatigue and applicable skills for eradicating its
symptoms. This is an invitation for counselors of all types to continue deliberate maturation of our professional and personal lives utilizing the five resiliency factors. Learn how to eliminate stress and experience quality of life once again.

11:00 am – 11:30 am
Program ID #652, Hall B1, Poster Area 8
Examination of Gender-Specific Treatment for Incarcerated Women
30-Minute Poster Session
Abigail M. Holder
Incarcerated women are commonly not afforded gender-specific mental health treatment and instead are given the same treatment for substance use disorders and other mental disorders as their male counterparts. Various treatment programs and theories have been implemented, but these have been found to be less effective for women due to lack of consideration of gender differences. This poster intends to bring awareness to the need for more effective, gender-specific treatments for incarcerated women.

11:00 am – 11:30 am
Program ID #653, Hall B1, Poster Area 9
Trauma-Informed School-Based Counseling With Children Living in Poverty
30-Minute Poster Session
Mary K. Perleoni, Glenn W. Lambie, Viki P. Kelchner, Jon R. Borland
Approximately 20% of children in enrolled in elementary schools experience psychological distress, and 75% of these students receive inadequate mental health services and are at an increased risk of poor academic achievement. This poster is intended to educate counselors on the importance of TI-SBMHCI as an effective tool in addressing mental health needs of students who live in low-income communities and have experienced a traumatic event. Clinical implications for future research and practice will be discussed.

11:00 am – 11:30 am
Program ID #654, Hall B1, Poster Area 10
Examining Students’ Perception of Supervisor Spiritual and Religious Integration
30-Minute Poster Session
Andrew P. Secor, Michelle Perepiczka
Knowledge of spirituality and religion (S/R) is a competency for counseling students. Inclusion of S/R in counselor education and clinical supervision is on the rise, but programmatic changes around S/R are missing from current literature. The presentation will address an initial investigation into the relationship between graduate counseling interns’ perception of their faculty supervisors’ spiritual and religious integration practices in clinical supervision and the students’ perceived spiritual competence.

11:00 am – 11:30 am
Program ID #655, Hall B1, Poster Area 11
Breaking the Silence About Misophonia
30-Minute Poster Session
Heather A. Geils
This poster will focus on helping counselors and counseling educators learn more about misophonia and the impact that the disorder has on the diagnosed individuals, as well as their interactions with their family, friends, and various other relationships.

11:00 am – 11:30 am
Program ID #656, Hall B1, Poster Area 12
Understanding the Third Culture Kid Experience in Counseling Supervision
30-Minute Poster Session
Kyulee Park
Third Culture Kids (TCKs) are individuals who spend significant time in their developmental years outside their parents’ culture of origin. Although TCKs experience unique drawbacks that may impact their counselor identity development, literature has paid little attention to the TCK experience and implications in counseling context. With an increased interest in globalization and multicultural supervision, this presentation introduces ways to effectively work with TCK supervisees in their identity development.

Adverse Childhood Experiences and Depression/Anxiety in Youth: Latent Class Analysis
30-Minute Poster Session
Isak Kim, Sojeong Nam, Jeongwoon Jeong
This program examines (1) latent groups of youths with adverse childhood experiences (ACEs) by using latent class analysis, in which subjects are grouped based on their patterns and
characteristics of responses; and (2) each latent group’s severities of depression and anxiety. Attendees will learn about latent groups of youths with ACEs and the impact of ACEs on youths’ mental health in the context of latent groups. They will also be informed of implications for working with youths with ACEs and depression and anxiety.

12:00 pm – 12:30 pm
Program ID #663, Hall B1, Poster Area 7
The Impact of Internalized Stigma on Clients With Schizophrenia: The Battle Within
30-Minute Poster Session
Megan A. Whitbeck
While the fight against the stigma of mental illness is in full swing, much more work still needs to be done. Internalized stigma in clients diagnosed with schizophrenia can have lasting negative impacts on treatment adherence, symptom management, and overall functioning. This poster will discuss the impact of internalized stigma on those diagnosed with schizophrenia and explain how counselors can support clients with evidence-based treatment strategies to improve their clients’ quality of life.

12:00 pm – 12:30 pm
Program ID #664, Hall B1, Poster Area 8
Position/Program Assessment of a Counselor-In-Residence on a University Campus
30-Minute Poster Session
Craig J. Gilkey, Kelly Green Kearns
Counselor-in-residence positions are beginning to pop up around the country. This poster will describe the evolution of this type of position on a college campus. The presenter will discuss measures, construct validity, outcomes of measures, and the perceived future direction of the counselor-in-residence position at his university.

12:00 pm – 12:30 pm
Program ID #665, Hall B1, Poster Area 9
Utilizing Dialectical Behavior Therapy in Rural School Settings
30-Minute Poster Session
Kristopher K. Garza, Steve F. Bain
A service learning project was designed to give counseling practicum students an opportunity to utilize the dialectical behavior therapy (DBT) model in a small, rural high school. This poster session will provide an overview of DBT and how the project was designed within a graduate student practicum course to ensure success for both the practicum student and the students enrolled in a rural South Texas high school.
