Becoming a Medicare Provider

Guila Todd, Government Affairs Manager, American Counseling Association
Matthew C. Fullen, PhD, LPCC, Virginia Tech
Monique Nolan, MD, JD, Arnold & Porter
Kristine Blackwood, JD, Arnold & Porter

April 19, 2023
The Mental Health Access Improvement Act closed the mental health coverage gap in federal law that has excluded licensed professional counselors (LPCs) and marriage and family therapists (LMFTs) from billing and receiving reimbursement under Medicare.

Effective January 1, 2024, the legislation allows LPCs and LMFTs to bill Medicare directly for mental health diagnosis and treatment services in most settings, except inpatient hospital.

The bill, passed into law in December 2022, was led in the Senate by Sens. John Barrasso (R-WY) and Debbie Stabenow (D-MI) and in the House by Reps. Mike Thompson (D-CA) and John Katko (R-NY).
How Did We Get Here?

Growing support from within Congress, CMS, and the Administration related to mental health investment

Use of research/data to raise awareness about the “Medicare mental health coverage gap” and the role of counseling profession to meet the need

Amplification of counselor and client perspectives to strengthen advocacy efforts

Persistence from ACA, the Medicare Mental Health Workforce Coalition, and grassroots advocates like YOU + Advocacy expertise from Arnold & Porter = SUCCESS!
What’s at Stake Going Forward?

• Access to mental health care for older adults & people with disabilities who rely on Medicare
• Expanded employment, new treatment contexts, and new client markets
• Counselors are now “at the table” when it comes to shaping the future of Medicare’s mental health program
Dec. 2022

The Mental Health Access Improvement Act (Pub. L. 117-328) passed in December 2022 as part of the Consolidated Appropriations Act of 2023.

June – August 2023

The Centers for Medicare & Medicaid Services (CMS), which administers the Medicare program, will issue its Calendar Year (CY) 2024 Medicare Physician Fee Schedule (MPFS) Proposed Rule.

July – October 2023

CMS will provide 60 days for the public to comment on the MPFS Proposed Rule.

November 2023

Once the comment period has closed, CMS will review the comments and release a final rule, typically on or before November 1.

Jan. 2024

LPCs become eligible Medicare providers, effective January 1, 2024.

Timeline for Becoming an Eligible Medicare Provider
The Medicare program was signed into law in 1965 to provide health coverage and increased financial security for individuals aged 65 or over.

“Traditional” or “Original” Medicare consists of two parts: hospital insurance (HI), also known as Part A, and supplementary medical insurance (SMI), also known as Part B.

- Part A/Hospital Insurance (HI): Generally covers certain inpatient care in a hospital, skilled nursing facility care, hospice care, and home health care.
- Part B/Supplementary Medical Insurance (SMI): Generally covers physician and designated non-physician practitioner (NPP) services, outpatient hospital services, certain home health services, durable medical equipment, and certain other medical and health services not covered by Medicare Part A.
- LPCs and MFTs will be eligible to enroll as non-physician practitioners under Part B in 2024 (“suppliers”).
Key Facts about Medicare beneficiaries

How many individuals are enrolled in Medicare?
As of September 2022, over 65 million people were enrolled in Medicare. Over 35 million individuals are enrolled in traditional Medicare, and over 30 million are enrolled in Medicare Advantage plans.

Who is eligible for Medicare?
65 years or older or entitled to monthly Social Security or Railroad Retirement Board benefits based on disability after receiving disability benefits for 24 months.

What is the current premium for Medicare Part B?
CMS sets the annual Medicare Part B premium, deductible, and coinsurance rates according to the Social Security Act’s requirements.

In 2023, the standard monthly premium for Medicare Part B enrollees is $164.90 per month. The deductible for all Medicare Part B beneficiaries is $226 in 2023.
Fill significant need: one out of four Medicare beneficiaries live with mental illness but only 40 to 50% receive treatment.

Avoid Medicaid denial issues for dually eligible beneficiaries.

Medicare Advantage plans cover treatment.

CMS’s provider support – call centers, listservs, training programs.

Easily findable by Medicare beneficiaries

Predictable cash flow.

Transparency; rates available in advance of treatment.

Opportunity to grow your patient volume.
A pre-requisite for providers enrolling under Medicare is having a National Provider Identifier (NPI) number. If you do not already have an NPI number, we recommend you apply for one in the next few months at CMS’s National Plan and Provider Enumeration System (NPPES) website - https://nppes.cms.hhs.gov/#/.

The agency uses an online enrollment system called the Medicare Provider Enrollment, Chain, and Ownership System (PECOS). You will need to provide information such as your professional license information, practice location(s), and electronic funds transfer documentation so that Medicare payments can go directly into your designated bank account.

https://www.cms.gov/medicare/provider-enrollment-and-certification/become-a-medicare-provider-or-supplier
“Assignment of claims” means health care professionals participating in Medicare (1) submit claims directly to Medicare on behalf of the beneficiary/client; (2) accept the Medicare-approved amount as full payment; and (3) charge the beneficiary only the Medicare deductible and coinsurance amount.

Beneficiaries seeing providers who accept assignment generally pay 20% of the Medicare-approved amount for the service, called coinsurance, after they have met their annual deductible. Medicare Supplement (or “Medi-Gap”) plans typically cover the 20% coinsurance.
