The Meeting was called to order by President Froehlich at 9:10 a.m.

I. Committee reports were presented.

A. MEMBERSHIP COMMITTEE. Report by Kenneth B. Hoyt Chairman.

ACTIVITIES

1. Dr. Hoyt reported a marked increase in membership to 7,077 on October 12. This figure is 1,200 more than one year ago and approximately 1,800 more than two years ago. New memberships are more than 900, indicating a heavy increase over last year.

2. The Membership Chairman is arranging meetings of the State Chairmen and of the Divisional Chairmen at the Convention.

3. State Membership Chairmen have been appointed in all States, Hawaii, and Canada. A summary of their activities was presented.

RECOMMENDATIONS

1. Consideration should be given to general membership. This was discussed later under consideration of the Constitution.

2. There should be a coordinated membership program in each state to bring together the Divisional and Branch membership chairmen. It was the consensus that such coordination should take place. The APGA Membership Chairman should consider this to be the policy with the understanding that the Divisions will appoint their own state membership chairmen with any problems resolved within the States.

3. Consideration should be given to Branches collecting national dues. It was pointed out, in discussion, that it could not be universally applicable because not all Branches would collect and many members are not in Branches. At present some Branches collect and send in national dues. It was the consensus that the Branch Presidents should be informed that they may collect national dues and send such dues through the Branch.
4. Authorization should be given for printing posters to be used by State Membership Chairmen, college and school personnel, and others. It was the consensus that this is a workable idea and should be developed with the Central office.

5. A special contingency fund should be established for use by State Chairmen in their activities. Motion made by Dr. Blaesser, seconded by Dr. Smallegung, that The APGA Membership Chairman should be provided with a fund for assisting State Membership Chairmen. Motion passed. It was noted that for the current year such funds would have to come from the budget items already established. It was not construed that the motion intended to establish any fixed sums to be utilized by all State Chairmen.

6. Funds should be authorized to conduct an "Each-One-Bring-One" campaign. It was the consensus that this should be handled by the APGA Membership Chairman on a local basis with the State Chairmen.

7. A membership certificate suitable for framing should be made available to members. Motion made by Dr. Arbuckle and seconded by Dr. Morehead that: The Central office investigate the possibility of preparing a suitable Membership Certificate. Motion passed. There was no final decision relative to the adoption of a plan of providing certificates.

8. Funds should be authorized for a graduate student campaign in February. It was the consensus that this is an activity within the purview of the position of APGA Membership Chairman and should be worked out with the Central Office.

9. Several other recommendations were made particularly affecting activities next year. It was the consensus that these items should be discussed with the President-Elect.

**OTHER MEMBERSHIP MATTER**

1. The motion was made by Dr. Fletcher and Seconded by Dr. Kamn that: The Executive Council looks with favor upon preparing a list of new members to be published in the PERSONNEL AND GUIDANCE JOURNAL and that this be forwarded to the Editorial Board and that the Board be free to act as desired, and may refer it back for reconsideration to the Executive Committee.
