87-10 - Conventions

Dr. Thomas Hosie, 1987 Convention Coordinator, reported to the Governing Council on the status of convention arrangements on the eve of the Convention opening. He brought greetings and welcomed the Governing Council members to New Orleans.

Attention was called to the report from the Convention Task Force and Dr. Gordon Foutman, Chair of the Task Force, and Dr. Sonya Vassos, a member of the Governing Council and of the Task Force, briefly commented on the report and its recommendations. This report is to be considered in subcommittee for possible Governing Council actions.

It was moved by G. Martin and seconded by R. Martin that: The Governing Council commend the Convention Task Force for its thorough report to the Governing Council. Motion passed.
It was moved by Salmon and seconded by G. Martin that: Relative to the issue of Definition and Goals of Convention, it is recommended that AACD adopt as guidelines the three recommendations of the Convention Task Force. Motion passed. The three recommendations covered by this motion are as follows:

1. That AACD support the concept of an Annual Convention.
2. That the Convention have as its main goals:
   (a) Service to the membership,
   (b) Interfacing,
   (c) Skill development,
   (d) Professional development,
   (e) Professional information.
3. That the Convention not be considered primarily as a revenue-producing event. However, it should be so structured as to at least offset direct costs.

It was moved by Salmon and seconded by Cosse that: Relative to the issue of Convention Rotation, it is recommended that AACD change its present convention rotation policy, effective after the 1991 convention, to a rotation based on geographical areas of the country and not on AACD regional structure to allow necessary flexibility to select the most advantageous site in any one year. It is further recommended that site selection would be based on guidelines recommended in the Convention Task Force report. Motion passed. The guidelines for site selection as recommended in the Convention Task Force report are as follows:

1. The convention should rotate to different cities throughout the country. A stationary site would unduly burden the volunteer group needed to manage the convention and may make the convention inaccessible to a large number of members.
2. The rotation system needs to be flexible to respond to the changing patterns of convention attendance; availability of emerging cities; special-packaged offers; etc.
3. Rotation should be based on geographic regions of the country and not on AACD regional structures to allow necessary flexibility to select the most advantageous site in any one year.
4. Selection of a site for the AACD Convention should be well in advance to be able to negotiate the best package and to acquire the most favorable dates (seven years).
5. Convention site should be selected on the basis of serving the maximum number of members possible in keeping with the intent of the other principles listed here.
6. Convention rotation should consider economic factors. Any site should be selected on the basis of covering the direct costs of the convention.
7. The convention should be seen as a service to members and, as such, sites should be selected that offer availability to a wide range of the membership.
8. Site selection should consider the following:
   (a) Transportation costs and availability;
   (b) Labor costs;
   (c) Audio-visual costs and availability;
   (d) The convention facilities must be fully accessible to the handicapped;
   (e) Estimated per diem expenses;
(f) Competition of other related groups meeting at the same site and in the same year;
(g) Past history of the city as a convention site;
(h) Special features of the site, as a tourist attraction, that would be of interest to members;
(i) Special package costs for emerging cities;
(j) There must be a sufficient number of members and convention workers in the area to meet the needs of the convention for volunteer help;
(k) Appropriate dates;
(l) Number of members of AACC that would be served by holding the convention at the proposed site;
(m) Number of members that would be served by holding the convention at the proposed site that have not been served by previous conventions;
(n) Number of members that would be served by holding the convention at the proposed site that have not been served by a convention in "a number" of years;
(o) Number of times the convention has been held in the geographic region;
(p) Level of support of the state AACC in which the site is located and the level of support of other state AACCs in adjacent states or close proximity.

It was moved by R. Martin and seconded by Bloom that: The findings of the survey of the sampling population attending the New York and Los Angeles conventions should be given serious consideration in terms of convention planning, both for time of the year and days of the week, and that the current POLICY of avoiding major religious holidays be continued. Motion passed.

It was moved by Salmon and seconded by Smith that: Relative to the issue of Format of the Convention, it is recommended that the AACC Governing Council name an appropriate group to (1) further study and refine the initial format-related recommendations of the Convention Task Force, and (2) recommend guidelines for convention format to possibly be in place by the 1989 Convention. Motion passed. It was agreed that this would be placed on the agenda at the July 1987 Governing Council meeting.

It was moved by Bloom and seconded by Smith that: As a guideline, "Registration materials be MAILED no less than 120 days prior to the beginning date of a given convention. Motion passed.

It was moved by Salmon and seconded by Cosse that: Relative to the issue of the Regional Leadership Workshop Day, it is recommended that the discussion and recommendations of the Convention Task Force be reviewed at the Leadership Meeting in September and at each of the Fall Regional assemblies. The comments or findings from each of these groups will be summarized by an appropriate AACC staff member and reported to the next Governing Council meeting. Motion passed. (The Convention Task Force Recommendations Concerning Regional Leadership Workshop Day are attached to these Minutes as Appendix A.) This is to be an agenda item at the September Leadership meeting and the Fall Regional meetings, and is to be placed on the Agenda for the Spring 1988 Governing Council meeting.
It was moved by Bloom and seconded by G. Martin that: Recommendations re: Review/Evaluation/Selection - Program be referred for further study with the recommendation that Standing and Special Committees be given two time slots and that the due date for content program proposals be changed from August 1 to September 1. Motion passed.

It was moved by R. Martin and seconded by G. Martin that: Recommendations of the Convention Task Force re: Formula for Allocations of Convention Time Slots be referred for further study. Motion passed.

It was moved by Smith and seconded by Bloom that: Recommendations No. 1, 2, and 3 from the Convention Task Force re: "Issue: Related but Unofficial Group Involvement" be forwarded to AACD staff to follow concerning unofficial group involvement at the AACD convention. Motion passed. The Recommendations referred to in this motion are as follows:
1. That the participation of related groups be encouraged since it often leads to coalition building, expansion of knowledge, and increased quality of convention offerings.
2. That AACD staff should develop a procedure to include the process for participation of related groups to the AACD Convention. This policy should include what groups will be eligible to participate; how these groups will be approved for participation; a cost-recovery process for AACD services; and how specific programs would be approved. The procedure would then be presented to the Governing Council for action.
3. Since there is currently a mechanism for content program selection through regions and AACD Headquarters, any group wishing to provide a content program should follow the established guidelines for content programs.

It was moved by Salmon and seconded by Bloom that: Relative to the issue of Competition for Convention Participants, it is recommended that the findings and recommendations of the Convention Task Force be referred to the Leadership Meeting in September for further discussion. Motion passed. (The Convention Task Force recommendations re: Competition for Convention Participants are attached to these Minutes as Appendix B.)

It was moved by Hotelling and seconded by Hurt that: All Divisions, regardless of whether they have separate conventions, will continue being eligible for Convention revenue sharing. Motion passed (23 for; 5 against).

It was moved by Salmon and seconded by G. Martin that: Relative to the issue of the Film Festival, it is recommended that appropriate AACD staff with the input of at least three former local Film Festival coordinators develop a standard format for soliciting, screening, judging, and acknowledging winners so that the person in charge has specific guidelines, as well as necessary fiscal support. Motion passed.

It was moved by G. Martin and seconded by Cosse that: The Governing Council moves to continue and support the existing policy on Complimentary Unit Allocation for Convention. Motion passed (25 for; 4 against; 1 abstain).

2. That the draft of the Convention Manual be revised following the July 1987 meeting of the Governing Council. (Assuming the adoption of a number of the recommendations of the Convention Task Force, it will be necessary to revise the Convention Manual.)
