91A-60 - Policy on International Projects and Conferences and Non-USA Meetings

It was moved by Noel and seconded by Minor that: The International Relations Committee be asked to develop an international policy to guide AACD involvement in international activities and projects. Such a policy should include the purpose, rationale, and emphasis of our international thrust. A draft of the policy should be presented to the Governing Council for its consideration in April 1991. Motion passed. (Rationale: With the growing international interests in the Association, AACD needs to think through what is or should be our primary purpose and how we can best achieve it. The International Relations Committee should examine current activities and consult with current and past international conference planners, divisional networks, the Foundation, and others involved in international activities.)

It was moved by Minor and seconded by D'Bryant that: The International Conference Policy be accepted as corrected. AACD will support, by endorsement, conferences relating to counseling and human development offered by recognized organizations other than AACD and its entities on
an international basis. Attendance at such conferences held outside the United States and its territories and possessions by AACD officers, members, or employees will not be funded by AACD unless specific approval by the Executive Committee is granted. Bilateral or international conferences which are organized by AACD in collaboration with a comparable entity outside the U.S.A. are authorized insofar as the budgeted income developed by such a conference will cover costs. Motion passed.

It was moved by Smith and seconded by Minor that: Effective July 1, 1991, regular meetings of AACD and Regions may only be held within the fifty states unless specific pre-approval for planning and attendance outside of the United States is authorized by the AACD Governing Council.

Vote was then called for on the motion that: Effective July 1, 1991, regular meetings of AACD and Regions may only be held within the fifty states unless specific pre-approval for planning and attendance outside of the United States is authorized by the AACD Governing Council. Motion passed.

It was moved by Craft and seconded by Miranti that: The Governing Council adopt the proposed policy for AACD on non-consensus social issues of conscience as submitted by the Association for Adult Development and Aging, as revised. ("Preface" and "Issues" were eliminated.) Motion passed (26 for; 9 against). (Asking to be recorded with "NO" votes were: Coy, Davidson, Garfield, Hansen, Komives, O'Bryant, Remacle, Smith, Solomon.) The policy, as adopted by this motion, reads as follows:

AACD Policy and Role on Non-Consensus Social Issues of Conscience

Having respect for the individual's values and integrity in no way restricts us as individuals from finding legitimate avenues to express and support our views to others who decide and make policy around these issues. To this end, it will be AACD Governing Council policy to encourage its members to find and use every legitimate means to examine, discuss, and share their views on such matters within the Association. We also endorse the member's right to support social, political, religious, and professional action groups whose values and positions on such issues are congruent with their own. Through such affiliations, every member has an opportunity to participate in the shaping of government policies which guide public action.
To truly celebrate our diversity, we must be united in our respect for the differences in our membership. To this end, the role of the Association in such matters is to support the rights of members to hold contrary points of views, to provide forums for developing understanding and consensus building, and to maintain equal status and respect for all members and groups within the organization.

Following this philosophy, the Governing Council considers it inappropriate for this body to officially take sides on issues which transcend professional identity and membership affiliation, and which substantially divide our membership, at least until such time that there can be a visible consensus produced among the membership.

91A-62 - Legislative Grants

It was moved by Remacle and seconded by Garfield that: The Governing Council approve the recommendations proposed by Dr. Howard Smith regarding procedures for Legislative Grants and that these recommendations be implemented through the Government Relations Committee. Motion passed. (The recommendations covered by this motion are attached to these Minutes as Appendix A.)

91A-63 - Diversity of Representation in Committee Appointments
