He indicated that the committee would like to have Governing Council approval of their plan for the completion of their activities. In his interim report, Dr. Walz reported that 201 resumes had been submitted to the Committee, with 65 following through with complete applications. There were candidates from both association executive ranks and from counseling and development administrators. He reported that there was diversity of both race and gender. The Search Committee has interviewed eight semi-finalists and will conduct site visits to determine the top three or four. The final three or four candidates will be interviewed at headquarters May 8-12, with opportunities for headquarters staff and volunteer leaders to participate (the latter at their own expense) and provide feedback to the Committee. Notwithstanding any other provision of this Plan, to the extent needed to meet the limitations of Code Section 401(m), the Institution may, as determined by the Plan Administrator:

1. Distribute Excess Aggregate Contributions, adjusted to reflect investment experience, to the Participant no later than 12 months following the end of the Plan Year in which the Excess Aggregate Contributions arose. Excess Aggregate Contributions shall be treated as Annual Additions under the plan. The distribution of Excess Aggregate Contributions for each Participant who has Excess Aggregate Contributions will be made in a nondiscriminatory manner.

2. Make Qualified Nonelective Contributions.

3. Include Elective Deferrals and Qualified Nonelective Contributions under this Plan or any other plan of the Institution in computing the contribution percentage under Code Section 401(m) (3).

4. Discontinue or limit contributions for Highly Compensated Employees at any point in the plan year, if it is determined by the Plan Administrator that continuation of contributions in accordance with the provisions of this Plan will cause the Plan to exceed the limitations of Code Section 401(m).

It was moved by Stockton and seconded by Jepsen that: The Governing Council adopt the resolution statement regarding authorized signers as proposed. Motion passed. The resolution, as adopted, reads as follows:

WHEREAS, The American Association for Counseling and Development has need from time to time to open accounts with Banks and Savings and Loans and other financial institutions; and

90-2-18 - Governance Restructuring Committee Presentation and Small Group Discussion

Mike Robinson of the Governance Restructuring Committee presented the current document on restructuring and there was considerable discussion, both as a full Governing Council and in small discussion groups. Much of this report came from data gathered by the Committee or others in regional or divisional meetings and through a formal survey of Governing Council leaders of the past five years. From these data, the Committee compiled thirteen recommendations for governance models. Among major recommendations are:

1. Regional structure be reconfigured along with restructuring of state branches into a more direct relationship of state branches to AACC;
2. A national strategy for leadership development;
3. A new basis for representation, possibly a 2-1 or 1-1 instead of the present 3-2-1;
4. Have an examination of the president's responsibilities with an eye to possible shared responsibilities among the past president, president, and president-elect; and
5. That the present is accountable for the strategic plan and that annual themes should relate to the strategic plan.

It was moved by Coy and seconded by Evenson that: The Governing Council accept the evaluation of the 3-2-1 Plan as contained in the Governance Restructuring Committee report and that the current governance structure needs to be modified. Motion passed.

It was moved by H. Smith and seconded by Evenson that: The Governing Council direct the Governance Restructuring Committee to develop and
propose two models for consideration at the July 1990 meeting, and that
the two models reflect serious consideration of the comments generated
during this meeting in March 1990, and subsequent meetings during the
Cincinnati Convention, one representing minor modifications of the 3-2-
1 Plan and the other one representing more extensive modification; one
of the alternatives will be a 1-1 plan. It is further recommended that
the Committee clarify the issues raised by the Governing Council
subcommittees regarding the current report, and tie this restructuring
process to the strategic plan. Motion passed.

It was moved by Coy and seconded by Evenson that: An amount of
$1,500.00 be made available to the Governance Restructuring Committee
so it can accomplish its tasks (subcommittee meeting, telephone,
publish documents) by June 30, 1990. Motion passed.

90-2-34 - Strategic Planning Committee Presentation and Small Group
Discussion

A presentation was made by Cynthia Johnson of the Strategic Planning
Committee, and full discussion was carried out by both the full
Governing Council and small discussion groups. The report of the
strategic plan was based on activities over the last two years, during
which inputs were sought at regional and divisional meetings and
through a member survey in Guidepost. Although there were only 609
respondents, an analysis of demographics indicated the respondents were
very representative of the AACC membership.

The Governing Council indicated a desire to see the revised goals and
objectives of the strategic plan following subcommittee inputs. (This
was provided.) Questions were raised about the priority order of the
nine goals and objectives and whether the goals should be prioritized
at all. Following lunch break, the Governing Council spent almost five
and a half hours debating the strategic plan. Members were concerned
that the strategic plan should be only a working document, but it was
also pointed out that, by its very nature, strategic planning is a
tentative process, with revisions ongoing each year. The Governing
Council decided to act on the various parts of the strategic plan
separately (mission, identity, goals and objectives), and spent
considerable time discussing the various points before action was
taken.

It was moved by Richmond and seconded by H. Smith that: The Governing
Council adopt the identity statement, mission, goals, and objectives of
the Strategic Plan as amended, as a working document.

Following some discussion, it was moved by Rotter and seconded by Mable
that: The Governing Council moves to divide the question (vote on each
section separately). Motion passed.
It was then moved by Sweeney and seconded by Weikel that: The Governing Council adopt the identity statement as found on page 17 of the Strategic Planning Committee report.

It was moved by Rotter and seconded by Shails that: The motion on adoption of the identity statement be amended to remove the words "working document". Following further discussion, the amendment was withdrawn.

Vote was called for on the motion that: The Governing Council adopt the identity statement as found on page 17 of the Strategic Planning Committee report. Motion passed (one abstain). The identity statement, as adopted, reads as follows:

The American Association for Counseling and Development (AACC) is an organization of counseling and human development professionals who work in educational, health care, residential, private practice, community agency, government, and business/industry settings.

It was moved by Sweeney and seconded by Stockton that: The Governing Council adopt the mission statement as found on page 17 of the report of the AACC Strategic Planning Committee. Motion passed. The mission statement, as adopted, reads as follows:

The mission of the American Association for Counseling and Development is to enhance human development throughout the life span and to promote the counseling and human development profession.

It was moved by Sweeney and seconded by Weikel that: The Governing Council adopt the Goals for 1990-91 (as amended) as found on page 20 of the Strategic Planning Committee report as a working document, i.e., policy of the Association which is continually under review. Motion passed. The Goals as adopted by this motion are as follows:

- To promote the professionalization of counseling and human development.
- To promote the personal and professional development of counseling and human development professionals.
- To promote a developmental approach which will facilitate positive change and optimize human potential among the members' clientele.
- To promote programs which proactively address human rights, societal trends, and social issues most relevant to the profession.
- To promote public awareness of and support for the counseling and human development profession.
- To promote the advancement and dissemination of research and knowledge in counseling and human development.
- To promote and support public policy and legislation which enhances human development.
- To promote, respect, and recognize the global interdependence among individuals, organizations, and societies.
To provide the organizational structure, membership, management, staff, facilities, and resources necessary to fulfill our mission.

Considerable discussion revolved around the question of what should be the priorities of the strategic plan and whether the goals should be prioritized at all. The present prioritization is based on responses from the Guidepost survey. Clemmie Solomon, of the Human Rights Committee and AMCD, urged that the human rights goals have a higher priority. Committee Chair Bob Nejedlo pointed out the discrepancy between the ranking of the human rights goal by leaders and members (leaders ranked it second, members ranked it seventh). The committee therefore had moved the human rights priority to number four.

It was moved by Sweeney and seconded by Solomon that: The Strategic Planning Committee be asked to review the prioritization process and recommend priorities for the Goals for 1990-91 (as amended) to the July, 1990 Governing Council. Motion passed.

It was moved by Sweeney and seconded by Weikel that: The Governing Council adopt the objectives and three-year plan (1991-94) (as amended) contained in the Strategic Planning Committee report (pages 24-40) as a working document, i.e., policy of the Association which is continually under review. Motion passed.

It was moved by Richmond and seconded by H. Smith that: The ongoing Strategic Planning Committee establish: measurable behavioral objectives, cost analysis of the plan, and an assessment of the present AACD activities which relate to the plan.

It was moved by Hill and seconded by H. Smith that: The motion on the floor be amended to add the following: To retain a highly qualified and experienced strategic planning consulting firm to review all documents, procedures, and conclusions derived from the strategic planning process and to present the Governing Council with a comprehensive analysis of the process used and with recommendations for future work in this vital area.

It was moved by Robinson and seconded by Myers that: The review not take place until the cost is known and then the outside review would be approved in July if it is judged cost effective at that time. Amendment passed.

Vote was called for on the amendment to retain a highly qualified and experienced strategic planning consulting firm to review all documents, procedures, and conclusions derived from the strategic planning process and to present the Governing Council with a comprehensive analysis of the process used and with recommendations for future work in this vital area; but that the review not take place until the cost is known and then the outside review would be approved in July if it is judged cost effective at that time. Amendment defeated.
Vote was then called for on the motion that: The ongoing Strategic Planning Committee establish: measurable behavioral objectives, cost analysis of the plan, and an assessment of the present AACD activities which relate to the plan. Motion passed.

It was moved by Hill and seconded by H. Smith that: The Strategic Planning Committee be requested to develop a document that provides Governing Council and the membership with a comprehensive analysis, not just a listing, of the state of the Association relative to the components of the Forbes model, that is, internal strengths and weaknesses within the context of external dangers and opportunities. Motion passed.

90-2-35 - Human Rights Committee - Human Concerns Fund

It was moved by Dickinson and seconded by Sheldon that: The Chairperson of the Human Rights Committee, the Executive Director, President and President-Elect of AACD explore ways for establishing a Human Concerns Fund. This is to include approaching the Foundation for possible collaboration in developing a fund raising mechanism and the administrative management of the Human Concerns Fund as well as AACD staff exploration of other possible internal or external alternatives. A report is to be presented to the July 1990 Governing Council. Motion passed.

90-2-36 - Policy on Diversity of Representation in Committee Appointments

It was moved by Herman and seconded by Weikel that: The professional staff be directed to review and update for consistency the policies and procedures regarding Committees and representatives, and bring an updated policy back to the Governing Council for approval in July 1990. Motion passed.

90-2-37 - Nominations and Elections Policy Recommendations

It was moved by Craft and seconded by Wilgeroth that: The Governing Council approve Proposal 2 of the AACD Nominations and Elections Committee recommendations with the following changes: (1) Delete recommendation 3; replace with the following wording: "Screening of nominees will be conducted through use of an objective screening instrument." (2) Delete recommendation 7-B. (3) Adopt the proposed nominations and elections schedule with the following addition: September 1 is the deadline for receipt of AACD answers for Guidepost for both AACD and divisional candidates. Motion passed. (This motion is to be referred to the Bylaws Committee as a Bylaws change is required.)
90-2-38 - Professional Membership Criteria

It was moved by Sheldon and seconded by Mable that: The Governing Council adopt the Task Force report which states: "The Divisions and not AACD should set standards for professional voting membership in accordance with qualifications for entry level positions in the specialty they represent." Divisions should have standards in place by the Reno Convention in April 1991.

Following considerable discussion, it was moved by Robinson and seconded by Myers that: The motion on the floor be tabled to the July 1990 Governing Council meeting. Motion passed (19 for; 17 against; 1 abstain), and the motion was tabled. (See New Business, item 90-2-58.)

90-2-14 - Counseling and Human Development Foundation Report

Dr. Garry Walz, a member of the Counseling and Human Development Foundation, reported to the Governing Council on the Foundation's activities. He called attention to some of the highlights in the written report that had been provided, particularly the leader survey (completed) and the member survey (planned) regarding an international center, of the team captain approach to funding, the nest egg campaign, the appointment of Mike Robinson to the Foundation, and the completion of tenure by Dave Capuzzi. This report was for information only and no Governing Council action was required.

90-2-13 - Insurance Trust Report

Dr. Brooke Collison, Chair of the AACD Insurance Trust, reported on the status of some of the insurance programs presently being offered to the members. He highlighted some of the activities of the Trust during the current year. The report of the Insurance Trust was for the Governing Council's information and did not require any action.

90-2-12 - CACREP Report

Dr. Joseph Kandor, Chair of the Council for Accreditation of Counseling and Related Educational Programs, reported on some of the activities being carried out by CACREP and on the plans for the future. This report was for information only and no Governing Council action was required.

90-2-11 - NBCC Report

Dr. Wanda Lipscomb, Chair of the National Board for Counselor Certification, and Dr. Thomas Clawson, Executive Director of NBCC, reported on the status of NBCC's programs and on future plans which are getting under way. They reported on plans, in collaboration with ASCA and AADA, for certification of school counselors and gerontological counselors. This report was for the Governing Council's information and did not require any action.
90-2-39 - Pupil Services Policy

EXECUTIVE SESSION

Nancy Scott as recorder, Garry Walz as a member of the new Executive Director negotiating team, and Marianne Mitchell as President-Elect-Elect, were invited to remain for the Executive Session. Agenda items were: (1) Cost of Executive Director Search, (2) Guidelines for the Executive Director contract, and (3) Discussion of legal counsel.

1. Cost.

A. Search and Transition. The estimated cost of the search and transition is $107,000 over the FY 1990 budget. The President has been directed by the Executive Committee to ask the Insurance Trust to underwrite the cost. The Governing Council asked the President to pursue with the Trust chair questions regarding the legal and ethical precedents for using Insurance Trust monies for this purpose.

B. McDonough Contract. President Hansen pointed out that some issues regarding Dr. McDonough's contract were not resolved due to lack of clear language in the employment agreement. She has talked with Bruce Hopkins, Legal Counsel; Preston Rutledge, Benefits Expert; and A. E. Van Meter of AACD Personnel to determine all aspects of the retirement plan, the employment contract, and the AACD Personnel Policy Manual regarding benefits to Dr. McDonough. On advice of Counsel, Dr. Hansen has sent a letter to Dr. McDonough reporting the legal interpretation. It was pointed out that the new contract needs to be in much more precise language.

The Governing Council made suggestions for the new contract, but indicated that the contract negotiating committee should have some leeway to negotiate. Suggestions were given for three important areas of the contract: term of office, renewal of contract, and severance areas.

A. Consistent with other association practices in the D. C. area, no automobile will be provided in the new contract.

B. It was suggested that the term of office might be: (1) three years with a three-year renewal, (2) two years with automatic renewal, (3) five years with lesser time for renewal.

C. Language regarding aborting or terminating the contract should be very explicit.

D. Depending on the candidate's experience and salary levels in the D. C. area, the salary range should be from $90,000, with possibility for negotiations.

3. Question of Legal Counsel

The question of the kind of legal counsel needed for AACD was discussed in light of Bruce Hopkins' move to a new law firm, Steptoe and Johnson. He can take his clients with him if the clients so wish. It was recommended that:

A. Any decision regarding legal counsel be deferred until the July 1990 meeting.

B. The contract negotiating committee must tell the attorney the Governing Council's expectations on the new Executive Director contract.

C. Continue with Bruce Hopkins for the development of the new Executive Director contract.

D. The negotiating committee should get a second opinion on the new Executive Director contract.

It was also suggested that AACD might need to deal with two separate attorneys, one for the Executive Director contract, and one for other matters. The negotiating committee was urged to ask the attorney regarding possible pitfalls and also to refer to the names provided by ASCA in considering a new or second attorney.
ADJOURNMENT

The meeting of the AACD Governing Council was adjourned on March 14, 1990, at 7:05 p.m.

Respectfully submitted,
